FOREST WINE

e diamerry of the FOREST WINE is the protocol bleaming of the age. Put up in Quart Butles, a single butleng which does more good, and goes further in the cure of Diamese, than tan boilts of any Stress-parilla in use, find warmanded to cure

without any unpleasant or weak-ming effort. THE method by which all Sarsangaillas, and other simi-lar medicines are prepared, is by boiling the Roots or Plants to obtain the extracts. The medical virtues are thus principally eraporated and destroyed. It is not to be wondered at then, that even ien and twen-ty boiling of these Sarsaparillas are sometimes taken without any perceptible benefit. Notes with the Forest Winet. By the invention of a wonderful chemical apparations a perfect wine is produced without heating; retaining at the same time, all the primitive bealing properties of the rare mellet-nal plants of which it is composed, thus rendering the Forest Wine the most efficient mellicine the world ever produced; at the same time the most agreeable.
