years of study, by one of the first physicisms in the United ates, and used in his private practice. Their marked suc cess elicited the most unqualified approbation of physicia and others, who had witnessed their effects. Possessing the sensitive feelings of a thorough-bred physician, I M'Lans dreadet being classed with the shallow-pretenders who crowd the columns of the hewpspers with puffs of sovereign remodies, and for a long time, declined the requests of many that he would proclaim his great remody to the public; but, finally, after much permassion on the part of physicians and others, the had winessed the wonderful curse effected by the liver Pills, he consented to prepare it for general use. The following certificates from Dr. Morgan, will bear us out in this statement: it is also valuable as medical testimony of the efficacy of these Pills:

"This is to certify that I have been associated with Dr. M'Land, in the practice of medicine, for nearly two years and a half. I have had many opportunities of witnessing tile good effects of his Liver Pil; and I believe they have cured and relived a much larger proportion of the diseases of the Liver, than I have known cured and relived by any other course of treatment.
