WA extent throughout this city, as well as in other localities, with a success that his Tarely attended any medicine, not heralical throughout the whole country by the press.

Bre. Keyser's Feetward Syrapp.

Is the prescription of a regular physician, who used it for several years in his practice, with a success mequalied by any other medicine in use, and it was only upon: the great and daily increasing demand for it, that he was induced to put it up in bottles, for a more general and extensive sale.

We claim for the Pectoral Syrup that it is an ENTHIELY NEW PREPARATION, differing in every respect from the raisons remedies now in use, for the diseases of the Pulmonary organs. IT. DOES.NOY. SIGKEN THE STOMACH, by containing nanascating does of spidlis, antimony, and ipecachuans. It has in the orgitate to constipate the bowels, and dry up the secreting organs; but its section is wholly different from the section of any of this above named drugs. IT IS AN EXPECTORIANT, that clears out the tubes and air cells of the Lungs and Bronchis, in a manner that is not equalled by any other remedy. It dissolves, in a great measure, the greatly increased, secretion of mucous, attending the various diseases of the air cells and bronchisl tubes. It aliays all irritation, almost as soon as it is taken, and it has been known to cure a cough of several weeks 'duration, in THREE DOSES!.

We have several remarkable cases noted down, where it succeeded in curing cases having every appearance of PULMONARY CONSUMPTION.

Case 1—A young man, aged 19; of slender make; had cough; expectoration of dark matter from the Lungs and Bronchia, for three weeks; pulse up to 129; facilite fever and night sweats; great emaciation; pain in the breast; sometimes expectoration of matter streaked, with blood; had taken various remedies from physicians, with little or no re left; commenced taking the Petcoul Syrup in half the usual est notice.
