What is Forest Wine 1—This is a question in the has been sometimes asked, since the introduction of this truly splendid tonle preparation, compounded of various regulable ingredients, of known efficacy in the bealing art. The Forest Wine, as its name imports, is made out of some of the most valuable plants and beries of the vegetable singtons, and combined in such a way as to give the compound the taste and smell of Wine, and all the healing and threaing qualities of the Wine made of threat, and its deleterious effects. As a tonle, in diseases of the stomach, and a disrrice in affections of the kidners, and droppels, it has no rival.
