The Boston Boat system of transportation over our State improvements has been in use about ten years, and the great success and favor it has met with, is a sufficient guarantee that it is no longer considered a doubtful or uncertain experiment; but is acknowledged by all as vastly superior to any mode of transportation used on Canals, (when interested by Railroads.)

Goods loaded into our Boats at Pittsburgh, remain undisturbed until unloaded at our Warehouse in Market street, Philadelphia, thereby avoiding the delay consequent on three different transhipments, and securing the delivery of Goods in entire lots, the packages clean, and in as good order as when shipped.
