The following case of Engineers (O., (Ala.) January 2, 1852.

The following case of Engineers (Lughes, is our of the most admissing on record. After forty years sickness, two years correcting loriners, the amputation of one leg, and the body and links almost a mass of enting, putrifying, discharging ulcers, to be cured by eight toilles of Guyzott's Extract of

The misery that I have suffered for the last two years, I cannot describe to you. I was in such agony that I never rested, day or night. I was given up to die, and by the help of God I had made preparation for death, and had pointed out to my family the place where to bury my remains.

In October last, my son krought me one of your bottle wrappers. I read it, and found recont of some wonderful curse performed by your "Extract of Yellow dock and Sarsaparilla." I sent and got two bottles of it, and commenced taking it. In two weeks, to my great actonishment, my sores all became easy, and I could sleep all night, a thing I had not done for two years. When I had taken six bottles, my sores had nearly all healed. My sores got well as if by enchantment. I have now used in all-eight bottles of your "Extract of Yellow Bock and Sarsaparilis," and I now consider myself well. I um at a loss for terms to set forth; tho worth of this medicine, or to express my gratitude for what worth of this medicine, or to express my gratilide far what it has done for me. I must call it the Sarior of man from misery, while living upon earth.

I entreat all the afflicted to try this medicine, for I believe it will cure any known disease in the world. Lay saide all prejudice, and just up it, and preclaim its great worth to suffering mankind, and entreat them to take it, for it will cure them.

A Cure of irregularity in the Periods of Mentiousion.

So Read this statement of the case of Mary Moore, who was given up by her physicians as being utterly incurable, as herein certified to by Dr. A. S. Warder, one of her conas herein certified to by Dr. A. S. Warder, one of her congulting physicians:

BRANDSVILLE, VA. August 23, 1852.

1 certify that Mary Moore, a young tenals of 18 or 20 years of age, has been serving in my family, for several years. She became diseased some two or three years age, by tregularity in her periods of menstrantion, during which time she had taken a sovere cold. About the first of last April, your agent here, Wm. M. Rittenour, furnished her with a bottle of Dr. Guysoti's Extract of Yellow Dock and Sarsparilla, on trial; and in less than a week signs of recovery were apparent. She continued using the medicine until she had taken five bottles of it, and considered herself perfectly well, although when the commenced taking this medicine, her attending physician pronounced her case incurable. She was and had been for a long time delitious.

Plant rend Dr. Worder's statement of Bavore case of Mary.

MACOUTE:
BANGOVILLE, VA., Aug. 23, 1852
This is to certify that I was called in to see the above usued Mary Moore during the second of the sec named Mary Moore during the absence of her regular attending physician. Tound her in a critical and dangerous condition, and, as I thought, beyond all hope of recovery. After this I was called in consultation with her regular attending physician. Our cointons were, that her recovery was impossible. Ucarned that her disease was caused inore than two years ago, from irregularity in her periods of menstruation, caused by taking a severe cold. I did not see her again, but soon after learned that she was getting well. I was much surprised at this, and, on inquiry agits what could have caused this sudden change, was informed by Win. M. Rittenour,) that she had been taking Dr. Grysott's Extract of Yellow Book and Sarsaparilla. I have since heard of its great effects in other cases in this vicinity. I have no inducement to make thit statement, other than it may induce others affilied as was the subject of this statement, to try the Yellow Dock and Sarsaparilla, believing, as I do that it is possessed of many excellent qualities, and adapted to many diseases include to the human family.
