Subscription to the Connellsville Bailroad. As will be seen in another column, important

business was transacted in the City Councils last It will gratify the friends of the measure t learn that a City subscription to the Connellswille Railroad of half a million has been author. ized by the Councils, with great unanimity.

Another measure of importance was brought forward: the visit of the Legislature to this city. As the matter has not passed finally, we cannot Bay for certain whether our citizens will have a opportunity of extending their hospitalities to the officials of the State or not. A day or two

OUR COUNTY CONVENTION Meets to morrow, and we believe a good repre maintion of the party will be present. We hope that everything connected with its duties will pass off harmoniously, and that such Delegates will be appointed as will reflect credit upon the

Democracy of Allegheny. Although the whigs have a majority in our county, they have never been able to dampen the ardor of the democracy in the good cause, or by big majorities to make us falter in the struggle Our untiring efforts have kept up the democratic fire in the western part of the State for many years, and, under all circumstances, we are determined to keep it up for all time to come. It is well understood that the Delegates vote

by districts. The following is the manner in which they are arranged: The City of Pittsburgh to compose the First District, and elect two members to the Conven-

Franklin, to compose the Fourth District, and The boroughs of Birmingham and McKeesport, and the townships of Snowden, Jefferson, St. Clair and Baldwin, to compose the Fifth District

and elect one member. The borough of South Pittsburgh, and townthips of Ohio, Findley, Moon, Robinson, Upper

St. Clair and the Fayettes, to compose the Sixth District, and elect one member. OPENING OF THE CANALS. The editors of the North American have re-

ceived intelligence that the line of the State works, from Philadelphia to Pittsburgh will certainly be opened and ready for pavigation as early as the first proximo. It has been ascertained and reported at the Canal office that the breaches made by the recent freshet in the interior of the State are of so slight a kind as to ally repaired, and that, therefore, they will not postpone the free use of the works beyond the day mentioned. This will be gratifying news to our business community.

The merchants of Philadelphia are preparing for and expecting a large Spring trade. The North American says: "We can assure western merchants that, while they will find here stocks of goods equal in all respects to those at other markets, and may purchase them upon terms even more favorable than are obtainable elsewhere, they will be able to have them sent hence to the West as promptly as from any other point on the Atlantic. The Pennsylvania Canals in conjunction with the Central Railroad, furnish ample facilities for the rapid transportation of a very large amount of freight, and country dealers will therefore consult their interest in

procuring their supplies at this place. CHARTIER'S VALLEY RAILROAD. It will be seen by an advertisement in to-day's paper, that the Commissioners named in the act o incorporate a Railroad between Pittsburgh

and Washington, along Chartier's Valley, will meet at Monongabela House, on Friday morning, 18th of February, at 10 o'clock. The Commissioners are: John H. Ewing, John Bausman, L. P. Hitchcock, Jacob Morgan, Wm. S. Calchan, George S. Hays, James O'H. Denny, Henry Graff, Frederick Lorenz, George Ledlie,

Mansfield Brown, Charles H. Paulson, John Boyce, Thomas Watson, John Weaver, Daniel Houston, Robert McKnight, David T. Morgan, Thomas Bakewell, J. K. Moorhead, William Larimer, Jr., Lecky Harper, and William Mc-We hope there will be a full attendance on the part of the Commissioners, so that prompt and

vigorous measures may be adopted to secure the early construction of the Chartier's Valley Railroad. Let every friend of this important work esolve to give it every assistance in his power. We have received from Mr. Gonzy the March number of his celebrated Lady's Book, which is filled with good reading and pretty engravings. "Hours of Idleness," and "The Memory of the Past," are gems of art. The leading article is an illustrated description of the extensive establishment of Messrs. Cornelins, Baker & Co., in Philadelphia, for the manufacture of Gas Fixtures and Lamps, which we noticed last summer in the Morning Post. The ladies will find this ope of the most attractive numbers of Godey ever issued.

Ar Serofula !-- It has been remarked by eminen men, that in the varied catalogue of diseases in which ma te liable, there is scarcely one of such imit such interest, as Scrofula, whether we look to the observ of its origin, its insidious progress, the number and war of organs that it attacks, or its remarkable incurability of organs that it attacks, or its remarkable incurability and extensive fatality.

Scrottle has bedfied the skill-of the most controls physi-cians in this country and in Europe. But there is an anis-date in this disease in "Dr. Gegod's Estimat of Fellow Dock and Surasparilla," which is proving itself a Specific Dock and Surasparilla," Section.

ian13-ttosw See adre Ag-Low Spirits, Hypochondriac, want energy and capacity for business or disposition to enjoy life and happiness, are wretched complaints which allently prey upon the constitution of the unhappy object. They are usually brought on through troubles and afflictions of the mind, sedentary habits, confined air and close application tite, indigestion, dyspepsis, nervous debility, frightful dreams, and a pallid, unbasithy, downcast countenades Now, while these melancholy disorders exist, the hright sparkling eye lesses its wonted thatre—the mind is penetrativation and vivacity—the body its manly courage and vigor, and the noblest feelings of our nature gradually dwindle away to a fretful pervisit femper, until life becomes a burthern, and other diseases arise to shorten the existence of the wrotched victim.
