THE CITY POST.

FRIDAY MORNING.....FEBRUARY 18.

THREATENING LETTER.—Joseph Walker, the colored man who was so badly injured last Saturday week, by some persons unknown, on suspicion of having given information of the whereabouts of a fugitive slave, made an information before Mayor Park, on Wednesday, against a colored man named John Hopkins, charging him with being concerned in sending a letter to Stephen Gibson, dated the 15th instant, containing threatening language towards him.....

Walker boards with Gibson, who resides in the Second ward of Allegheny, and from the following extract from the letter, some idea may be formed of its contents:

"Now sir, we hope this will be sufficient for you as a warning. Let not this man be sent about your premises within twenty-four hours after the receipt of this letter, if you wish to secure your family from danger. Nor let him remain in the State three days if you wish to secure him from executing torture upon your person.....

This letter was signed "many ofities," and "Walker's" name was addressed to a young man, a fr.....

Walker's threatening him also with vengeance if he did not leave the city, for a short time.

The letter was given by two colored men to a little boy, to take it to Gibson's house, and he says that he knows Hopkins, and that he was in company with the man who gave him the letter. The boy's father also testified that he saw Hopkins in company with the man who gave the letter to his son. He was arrested by officer Long, and held to bail in the sum of $300 for his appearance at Court, to answer the charge of writing threatening letters.

AGGRIEVE HARMON.—The project of a Railroad connection between Buffalo and this city, is exciting considerable attention in the western part of New York. The *Express*, published in Buffalo, contains an article on the subject of the importance of the connection, from which we take the following extract:

"And here, our fuel. This road, by introducing coal here at the rate of a mill, is to lessen the cost of fuel, to the citizens of Buffalo, full one-half. Here, then, is a chief item in cheap manufacturing. With a supply of coal that will forever set danger fuel at defiance, what may we not do, with our prodigious lake? The iron of Lake Superior, which is exhaustless five labor? The iron of Lake Superior, which is exhaustless in quantity, and of a quality unsurpassed, will, by the Sault canal be placed upon our docks at a mere nominal cost; and from the iron ores of Pennsylvania, brought by the Pittsburgh Railroad, it may be manufactured in quantities such that its annual value can only be counted in millions."

Not quite so fast, neighbor; we have been in the habit of using up a little iron in this city yearly, in the shape of manufactures of various kinds. We have no objection at all to giving you as much coal as you want, but iron we find much nearer to Pittsburgh than to Buffalo, and here we have only to dig a hole in the ground to find a plentiful supply of coal. But build a Railroad to connect with the Allegheny Valley Road, and we will supply you with coal to make the experiment—cheap.

THEATRE.—Tonight the beautiful spectacle of the Naiad Queen, will be played, with more than its original splendor. In the splendid scenery of this piece, the Manager has certainly exhausted his faculty for the exhibition of marvellous delights. As a dramatic spectacle the Naiad Queen has never been excelled, and we doubt not, but that the manner in which it has been produced at the Pittsburgh Theatre, will compare favorably with the manner in which scenic pieces are produced at the theatres of the eastern cities. We do not believe our Naiad Queen has been excelled; and we think this a sufficient recommendation.

The Naiad Queen and Uncle Tom's Cabin, will be played tonight.—Let all who desire to encourage a worthy and energetic Manager, attend to seeing the house well filled.

RAILROAD ITEMS.—The Mountain Sentinel, says that John Dougherty, Esq., clerk for Messrs. Reilly & McGrath, section 101, Pa. R.R., had his ankle severely sprained at the Summit, on Sunday last, by his horse falling upon his leg.....

CONGRESSIONAL.

WASHINGTON CITY, Wednesday AF.

SENATE.—Mr. Underwood, from the committee on Foreign Relations, to which were referred various petitions in regard to securing religious freedom for American citizens abroad, made a report, accompanied by resolutions, declaring forth that it would be just and wise on the part of the government in future treaties with foreign nations, to secure, if practicable, to our citizens residing abroad, the right to worship God according to the dictates of conscience—by providing that they shall not be disturbed or annoyed in any manner, for religious belief, whether in private houses or churches; and that they shall be at liberty to build and maintain places of worship abroad, provided due respect be paid to the religion of the country where the American resides. The second resolution provides that this is sufficient for you as a warrant to secure your family from danger. Nor let him remain in the State three days if you wish to secure him from executing torture upon your person.....
