Pudder & Ford,
MANUFACTURERS AND DEALERS IN
MANCHESTER MINERAL PAINT,
Offices, No. 127 Water street,
New York, December 15, 1851.

I have analyzed a sample of MANCHESTER MINERAL PAINT, for PUDDER & FORD, and find it to contain the following:

Silica,	57,00
Alumina,	27,21
Per Oxide of Iron,	6,24
Lime,	16,41
Magnesia,	28
Oxide of Manganese,	28
Water and Loss,	12
	8,00
	100,00

The Powdered Sample, contained in the box, which I suppose was the one you desired me to have analyzed, I find to consist of two separate compounds, viz: the lumps powdered, and mixed together. This last yields as follows:

Per Oxide of Iron,	48,50
Silica and Alumina,	33,00
Lime,	2,00
Magnesia,	13
Water and Loss,	7,00
	100,00

This difference I presume arises from the mineral not being uniform, some portions containing more Iron than others.

The analysis shows the article to be well suited for a durable paint, and that by mixing the powder by a pretty high heat, the color is much improved, or at least converted into a fine red.

JOSEPH LOVERING. WM. C. BAIRD.

LOVERING & BAIRD,
(LATE J. S. STOCKLEY & CO.,)
MANUFACTURERS OF PHŒNIX FIRE PROOF SAFES, Second Street, between Wood and Smithfield—On Tuesday afternoon, July 22, 1845, the undersigned were called upon by Messrs. Hopper & Co., of Cincinnati, to witness an honest and fair test of one of their PHŒNIX SAFES. The furnace, being prepared, the Safe was placed inside thereof with books, papers and currency—the door of the Safe was closed, and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red hot, and continued till half past 5 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass ornaments. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof.

I am engaged in the foundry business, and know something about furnaces and heat. I witnessed the burning of the above Safe, and can freely say there was no humbug about it. It was, in every respect, entirely fire proof.

In testifying upon the above gentlemen for their signatures, they all spoke in the highest terms of the fairness of the test, and their full confidence of the Safe's being entirely fire proof. We have constantly on hand and for sale a full assortment of the above Safes. [mar31 BELL & TERRY.
