Daily Morning Post.

LECKY HARPER.....THOMAS PHILLIPS

Harper & Phillips, Editors & Proprietors.

PITTSBURGH:

FRIDAY MORNING.....MARCH 25.

☞ We North, as South, for East, to West, all for our Constitution; but a sacred reverence of the Charters dead, and true foreign, to the Common Brotherhood.—FRANCIS PARKMAN.

DEMOCRATIC NOMINATIONS.

CANAL COMMISSIONER,
THOMAS H. FORSYTH,
of Philadelphia County.

AUDITOR GENERAL,
EPHRAIM BANKS,
of Mifflin County.

FOR SURVEYOR GENERAL,
J. PORTER BRAWLEY,
of Crawford County.

☞ PRICE FOR PRINTING.—In consequence of large additions of New and Handsome Type to our Book and Job Offices, we are now prepared to do PRINTING OF ALL KINDS, in the best manner, and upon the most liberal terms. Every description and variety of Type, from Diamond to Pica, and from the largest Poster to the smallest Visiting Card, can be found in our establishment. Job Offices, Fifth Street, between Wood and Market.

☞ Subscribers who may change their residences or places of doing business, on the first of April, will be good enough to leave word at the office, so that our carriers may know where to find them.

THE MAILS.

There has been much irregularity in the mails lately, and the annoyance to publishers in consequence, is very great. The Eastern mail is always behind, from 4 to 24 hours. We do not attach blame to our city Postmaster for this delinquency; for we are satisfied that papers and letters are distributed as soon as possible after the mails arrive. The contractors and Railroad companies are, undoubtedly, in fault; and we earnestly call the attention of the new Postmaster General to the fact, so that the proper remedy may be applied. A special agent should go along the lines of the principal Railroads, which are employed in carrying the mails between the East and the West, so as to ascertain where the fault lies.

MONUMENT TO HENRY CLAY.

A meeting was held in Detroit on Monday evening, to take the preparatory steps for erecting a monument to the memory of Henry Clay.

How cold and false is this compliment to the great whig statesman. During his lifetime they paid him honors but to betray him, and whenever there was an opportunity for the party which he had made, to carry him to the goal of his ambition, he was thrown aside to make way for third and fourth rate men, who were considered more available. He had served them too faithfully to induce them to do him justice; they apprehended that his bold advocacy of their principles had made him obnoxious to the people, and from a basely selfish motive, they sacrificed him, to give more assurance to their own sordid hopes. They made money by the sacrifice. On two occasions, through such a course, they got control of the public treasury, and they were industrious in improving their brief term of power. But whenever gloomy clouds appeared in the whig horizon, it was the rejected Henry Clay, the cheated father of the party, who was called upon to dispel them by the thunder of his appeals to the people. He was always obedient to their call, nor did he ever repine at the ungrateful treatment he had received from them. He fought on bravely to the last, and then passed away, a painful illustration of the ingratitude of the callous hearted party to which he had attached himself.

But now, that he is consigned to the cold grave, they affect an enthustic feeling to do honor to his memory by building monuments. We approve of their movements in the matter, but we doubt much if one half of those that have been projected will ever be completed. The whig party are good talkers; but we apprehend that in these monuments, their propositions are all talk.

A GREAT SHOE WARE HOUSE.

We yesterday "took a look" through the great Shoe ware-rooms, of our friends and neighbors, H. CHILDS & Co., 133 Wood street, and were no little surprised at the extent and variety of their stock of goods. In fact, we may say, without fear of successful contradiction, that there is no other establishment of the kind in the country where can be found a larger or more valuable stock of boots and shoes, palm leaf hats, bonnets, &c. They occupy five large rooms in the main building, and three in a building adjoining, which are crowded with boxes and packages. As this firm purchase direct from the manufacturers in Massachusetts, they are enabled to sell quite as low as any establishment in Philadelphia or New York. Western merchants will find it to their interest to purchase from H. Childs & Co., and thereby avoid the trouble, expense, and delay of going further East.

☞ The *Gazette* of yesterday has a long leader on the Spiritual Rappers, and concludes it with the following sentence:

"So far as the Bible is concerned, its facts, its judgments, and its reasonings are against all them. If the 'rappings' emanate truly, and really from spirits, they are more true and reliable than the manifestations of the Witch of Endor, and not that than the manifestations of the present day are partakers in her guilt; and if they be truly and only jugglery, the guiltiness is only changed in kind, not in degree."

We believe our cotemporary had a revelation from one of the spirits a short time since, in regard to some of *his* mundane revelations. If he is not more careful, as to the style in which he writes about them, he may hear some very hard rappings yet. To compare the "mediums" to the Witch of Endor, is "flat burglary."

GEORGE P. SMITH & CO.

We desire to call the attention of our readers, and western merchants especially, to the advertisement of Messrs. GEORGE P. SMITH & CO., No. 54 Wood street, who are now receiving and opening several thousand packages of Spring Dry Goods, of recent importations, which they will sell at great bargains. Their stock embraces every variety of Foreign and Domestic Dry Goods, of styles, patterns, and prices, to suit every taste imaginable. Give them a call.

KENTUCKY PRODUCE.—They have a woman on exhibition in Louisville, weighing between 700 and 800 pounds. It has long been the boast of Kentuckians that each one of them is "half a horse," but here is one specimen which we may safely conclude, would out weigh a whole horse, and eat the "half alligator" for breakfast.

☞ The papers published at the head of the Allegheny, and all along its shore, anticipate a big flood. If it comes we may expect a large fleet of rafts at the Allegheny landing, and apprehend that some of them may meet with unfortunate collision against the piers of the bridges across that river.

CAMBRIA IRON COMPANY.—The Blairsville Apalachian states, that the new Iron Company at Johnstown, is now preparing for active operations. It is said they will spend not less than half a million of dollars about that place next summer.

FRAUD.—A Boston house recently shipped to the Sandwich Islands 200 barrels of what purported to be mess beef, with directions to have it stored till further orders. One of the barrels slipped from the slings while being stored and out plunged a ten gallon keg of brandy. On examination the entire number of barrels were filled with similar kegs, the duty on which would be $1200. They were forfeited to the government.

JENNY LIND.—The New York Courier says: "We learn directly, and from the very best authority, that the family difficulties which were recently said to have determined Mad. Goldschmidt to return to this country, do not exist in the least degree; and that there is no present prospect of our hearing her again from any cause whatever."

WEEKLY MONEY ARTICLE.

To all our inquiries respecting the money market this week, we have received but one answer, "money is extremely tight;" although the general belief is that a more favorable state of affairs will soon come around.

It is rather a difficult matter to define the causes of the pressure that is now felt so severely, for they are certainly numerous. The principal cause undoubtedly is the extravagant purchases of foreign goods made by American merchants, which have to be paid for in the precious metals. The imports during the last few months have been enormous. Our people will have to check up or ruin is inevitable. Nothing but the immense receipts of gold from California has saved the country from utter bankruptcy.

We have compiled from our Eastern exchanges the latest and most reliable information respecting the money market at the places mentioned.

The New York Herald, of the 20th, says:—"Money is still difficult to borrow on loan or discount; and the present high rates give no signs of relaxing. Call loans are very sparingly made at 7 per cent.; and commercial paper varies from 7 per cent., the bank rate, to 10 and 12 per cent. for first and second names."

The Philadelphia North American, of Saturday, says: "The week just drawing to a close, has been one of considerable astringency in the money market, with an advance in rates, though nothing in comparison with the astringency in New York, during the present and past weeks. First class 4 months paper has been readily placed at 7@8 per cent., and second class and long dates at from 8½ to 12 per cent. Silver change continues very scarce, and readily commands 4@4¼ per cent. premium."

The Baltimore Sun, of Monday, says: "The Stock market was rather dull on Saturday.—Shares of Baltimore and Ohio Railroad still further declined, the cash sales being at 81¼@82½, a fall-off of 1@1½ from the day previous. The time sales exhibit about the same decline.

"Within the last two or three days the money market is slightly easier, best endorsed paper goes at 7@8 ₩ cent.; undoubted single names 8@12; and names less known 12@15, with a fair supply of paper offering."

At New Orleans there is more activity in money. Parties have been holding large amounts of cotton and other produce for a rise, which has caused a large demand for facilities. The Delta, of the 9th inst., says—"Money to-day has been more in demand. One of the banks put checks up this morning at ½ per cent. discount. There is a broad range between the banks and the street. Out of door rates were ½ to ¾ per cent. We, however, noticed an increased demand for prime bills."

On Thursday, in the Virginia House of Delegates, Mr. Goode, chairman of the committee of Finance, presented a report, exhibiting the present condition of the finances of the State. It estimates the present indebtedness of the State at above $30,000,000. The amount of increase, by recent appropriations, amounts to about $10,000,000.

The St. Louis Intelligencer contains advertisements soliciting bids for the construction of the Railroad from Terre Hauto to Pocahontas, a distance of about 120 miles, and some 40 miles from the terminus at Illinoistown. The Intelligencer states that the right of way to all but an inconsiderable portion of the route has been secured, and upon terms unexpectedly favorable.

The following are the rates of Domestic Exchange between Philadelphia and the points named, as reported by Drexel & Co., Bank Note and Exchange Dealers, South Third street, Philadelphia:

Portland,	¼ dis	Raleigh,	1½ dis
Boston,	par @ 1-10 pm	Charleston, S.C.,	3@4 dis
New York,	par@1-10 pm	Savannah,	3@4 dis

DEATH OF EX-PRESIDENT POLK.—The Nashville Union announces the death of ex-President Polk, which occurred at his residence in that city, on Wednesday last, at 4 o'clock, P. M. He had been ill for some time, and his death was not unexpected.

Items of News and Miscellany.

The Journeymen bricklayers of Cincinnati have demanded $2 25 per day for their services.

The Troy and Greenfield Railroad Company have petitioned the Massachusetts Legislature for a loan of $2,000,000 to be appropriated to the construction of the Hoosic Tunnel.

The total amount of damage by the late storm, in Columbus, Georgia, is estimated at nearly $62,000.

Late advices state that a ship had arrived at Georgetown with two hundred and sixty-two Chinese coolies. Forty-three others died on board during the voyage, said to have been caused by smoking opium previous to embarking.

The Cincinnati and Marietta Railroad Company have constructed for 5,500 tons of railroad iron at Hanging Rock, Ohio.

According to official returns Ohio has averaged thirty millions of bushels of wheat for the last three years, of which sixteen millions are a surplus, after feeding all its own inhabitants.

W. C. Clarke, Judge of the Probate for Hillsboro' county, N. H., has recently decided that the investment of a ward's funds in a new railroad enterprise, is not the exercise of a sound discretion, and that the guardian is liable for the money and interest.

The King of Sweden, in consideration of the great scientific practical value of Lieutenant Maury's labors, has ordered that the Swedish navy co-operate with this officer, by making observations according to the form prescribed for his "Wind and Current" chart.

The 4th of March, Inauguration Day, was celebrated in great style at Cape Haytien. The American and Bremen Consulates were decorated with flags, as also was the shipping in the harbor.

"Register," the well known racer, it is said, has been purchased by Messrs. Wm. A. Combs, J. Edwin Coad, and John H. Tucker, of St. Mary's county, Md.

The consulate at Panama is estimated by the correspondent of the New York *Courier and Enquirer* to be worth from $35,000 to $100,000 a year. The commercial agency at St. Thomas, is estimated on the same authority, at from $6000 to $10,000.

It is not uncommon for Spanish ladies to possess a hundred fans. They collect and hoard them as a German collects pipes, or a geologist hunts after specimens.

The navy of Mexico consists of two fishing smacks and a raft—the former mounted with twelve marines, and the latter with a hencoop.

Some patriotic manufacturer has lately produced cards having Washington, Adams, Franklin, and Lafayette for the four kings; Venus, Fortune, Ceres and Minerva for the four queens; and four Indian chiefs for the four knaves—as curious a family party as one may meet in a long summer's day.

An officer put a man out of a theatre in New Orleans for stamping his feet and hissing. He received a blow while removing the offender, and prosecuted him for the assault. The court decided that hissing and stamping was allowable in the theatres, and a part of a privilege for which the fee of admission was paid.

Florida has a white population of less than fifty thousand—smaller than any other of the thirty-one States—yet St. Augustine is the oldest town in the United States, having been founded in 1564.

Governor Foote has appointed some two hundred of the leading citizens of Mississippi as delegates to the Southern and Western Commercial Convention to be held at Memphis on the first Monday in June next.

The value of taxable property in Covington has been found by an assessment just completed, to be $5,859,650. The population is 12,154; whites 11,860; free colored 40; slaves 254.

CRYSTAL PALACE.—The London correspondent of the Philadelphia *North American* states that Colonel Hughes, of Maryland, the representative of the American Association for the management of the American Chrystal Palace at New York, is now in London. He had a long interview Prince Albert, who in conjunction with her majesty, the Queen, takes great interest in the American World's Fair. Her Majesty, and Prince Albert will send over a variety of choice and valuable articles, including a bust of the Queen, to be exhibited. The Emperor of the French, the Pope and the Sultan are all among the contributors. England sends 542 objects, France 320, the Zollverein 500, Holland 142, and Italy 100 statues. Colonel Hughes will shortly leave London for Paris, and proceed to the several European courts upon his important mission.

The Price of Iron.

The Hartford *Times* says: In less than a year the price of railroad iron in Great Britain has advanced from £5 or about $26, to £10 or $52 per ton. It will probably not stop short of £12 or £14 per ton.

At least 25,000 miles iron railroad are now constructing in Europe and America—14,000 at least in this country. They will require for their completion 2,400,000 tons of iron. To make this quantity will occupy all the rolling mills in the world, which are engaged in the manufacture of railroad iron at least six years—those of Great Britain furnishing three-fourths, and the United States, France and Belgium the remaining fourth. The best authorities do not estimate the largest quantity of railroad iron made in any one year even as high as 400,000 tons, yet even at this rate it will take six years to furnish iron for the roads already begun.

The necessary consequence of this state of things is, that the price of railroad iron will not only keep up but further advance, and be maintained at very high prices for a long time. This will make the manufacture of railroad iron the best manufacturing business that can be undertaken in this country for some years, for it is affirmed on the best authority, that the article which is now selling at $70, with every prospect of advancing to at least $80 per ton, pays a fair profit to the maker at $50 per ton.

The advance in iron will nearly double the cost of many of the railways of the west and south, for the cost of grading upon some of them was less per mile than the cost of the iron, even before it advanced. The profit to a few of the companies which have secured their iron at low prices, will be very large. The English railroad companies are compelled to pay $10 per ton more for their iron at home, than the price at which our railroad companies were enabled to obtain it about a year ago, freight and duties included.

Legitimate Plunder.

The aggregate of rage which the two Connecticut banks—the *West Killingly* and *Woodbury*—had in circulation out in the West—Ohio, Michigan, Wisconsin, &c., is set down in Boston at *three hundred and eighty thousand dollars!* To redeem this pile they had on hand only a few chips and whetstones! The paper was out here and issued in buying up farmer's produce. And farmers are no fond of being gouged, swindled and robbed, that they readily take all such trash as willingly as children snap up colored picture books; and seemingly from their frequent practice, regard it as an honor to exchange the surplus of a whole year's toil for a few slips of nicely engraved pictorials, which in one or two revolutions of the sun are fit only for badges of imbecile credulity.

The complaint of the producing class is often heard that the taxes imposed upon them to keep the wheels of the State and local governments in operation, are onerous and oppressive enough to demand redress as an abuse; but the idea never seems to have entered their heads that for the toleration of the *rag money nuisance* the same laboring class pay a tax ten fold in magnitude, in the shape of produce exchanged for fraudulent, broken, depreciated or counterfeit paper money, manufactured expressly by drones and knaves to appropriate to their use and enjoyment the labors of the man of toil.—*Cincinnati Enquirer.*

Cod Liver Oil.

This nauseous medicine may be administered without the least disgust to a patient, by chewing and swallowing a small quantity of the roe of a smoked herring both *before* and *after* taking the spoonful of oil. A piece of sardine will answer, if herring is not palatable. The disguise is perfectly effectual, and the most delicate patient may thus use the physic with comfort.

☞ We have often heard of trees in Oregon that were so tall that it took two men and a boy to look to the top of them, but the following account of a tree in Jackson county, Ia., as given by the Jackson County Democrat, is pretty hard to beat in its dimensions:

The largest tree, perhaps, that can be found this side of Oregon, is a sycamore standing on the land of Stephen Crabb, near this place. It measures 89 feet in circumference, and has a cavity measuring in diameter every way 28 feet. This tree is large enough to make a commodious depot for the Ohio & Mississippi Railroad. We suggest that it be appropriated to that use.

DAYS OF GRACE.—An important innovation in the customs of this State, and in fact of the commercial world, with regard to the day when notes, drafts, bills of exchange, &c., must be paid in case of their falling due on Sundays and holidays, was effected in the House of Representatives on Friday, and if the co-ordinate branches of the government concur, will become the law of Massachusetts. It has heretofore been necessary to meet such obligations on the day *preceding* their maturity; by the bill which has passed the House, they may remain unprotested until the *succeeding* legal day.—*Boston Advertiser.*

WHERE IOWA CAME FROM.—From the census tables, we gather the following interesting information as to the sources of population in this State:

The total number of foreign citizens is 21,282; of these 3,785 are English; 4885 Irish; 712 Scotch; 852 Welch; 7,161 Germans; 882 French; 176 Swiss; 1,756 Canadians; 16 Mexicans, and about 1,900 of all other countries with a good proportion of Norwegians.

The native population is 170,620.

☞ A correspondent of the Philadelphia Inquirer says that when Talleyrand was in that city at the close of the last century, he resided in an obscure court, and all his furniture consisted of one chair and a straw cot-bed.—One cold morning in December he entered the store of a Frenchman, and wished to pawn his watch, as he was starving, and without a fire.—It was but a short time after this when Talleyrand became prime minister to Napolean and kings were glad to do him homage.

DANCING.—An Albany (N. Y.) paper comes out in terms of severe reprobation against this practice. The editor says:—"It is useless for any teacher to attempt to improve the heads or hearts of children, while some other teacher is engaged on their *heels*." This may be a logical deduction, but it puzzles us a little, notwithstanding. We have heard it assigned as a reason for putting the wedding ring on a certain finger, that there is a sympathetic chord extending from that finger to the heart; but we have never heard anatomists or others declare that there is an intellectual cord of connection between the head and the heels, so that one part cannot be educated without interfering with the other. If there is any truth in this theory, the dancing masters may object to having their pupils taught grammar, geography, &c.; for it is presumable that this mysterious sympathy will operate either up or down, unless it depends on the laws of *gravitation*, which we can scarcely believe, as we find it difficult to preserve our gravity, while we refer to the subject.—*Pennsylvanian.*

DEATH OF GRACE.—An important innovation in the customs of this State, and in fact of the commercial world, with regard to the day when notes, drafts, bills of exchange, &c., must be paid in case of their falling due on Sundays and holidays, was effected in the House of Representatives on Friday, and if the co-ordinate branches of the government concur, will become the law of Massachusetts. It has heretofore been necessary to meet such obligations on the day *preceding* their maturity; by the bill which has passed the House, they may remain unprotested until the *succeeding* legal day.—*Boston Advertiser.*

FATAL EFFECTS OF THE SPIRIT MEDIUMS.—We are credibly informed that Mrs. Rich, of Kirtland, was taken suddenly, in what appeared to be a fit, about 4 o'clock on Monday morning, Feb. 18. Her family supposed her to be in a mesmeric trance, and consulted a couple of the spirit mediums to ascertain what was the matter. The mediums wrote that she was in a mesmeric state, and would not come out until two weeks from that day.

Her friends refused to administer any medicines or allow any others to do so, supposing as they did, that she was in a trance. At one time she recovered enough to tell her attendants that if she did not have some relief she would die, and again became unconscious.

She lived along in this manner until Saturday morning, when she died. Her friends are now endeavoring to keep the corpse until the expiration of the two weeks, supposing that her spirit has left her body, and will return at the appointed time. Such instances of ignorant superstition as the above, in the 19th century, are a disgrace and a reproach upon the community.—*Cayuga Rep.*

CUSTOM WORK.
IN THIS BRANCH OF THE BUSINESS
They have on hand a full and beautiful assortment of CLOTHS and COATINGS for
FROCKS, DRESS, WALKING AND BUSINESS COATS.
Our interests are identical with those of our customers, and we assure the public that our facility will not fail in filling all orders that may be favored with.

☞ Druggists and others in want of any of the above mentioned articles, will find it to their interest to call, as our facilities for manufacturing and purchasing, and our experience in the business, give us advantages in selling over most of those in the same line. D. B. M'CULLOUGH,
jan14-6m-b 141 Malden Lane, New York.

The Demand Still Increases!
☞ As the public become better acquainted with the sterling qualities of M'Lane's Liver Pills, the demand continues to increase. Be certain is this great medicine in requiring a diseased liver to the exercise of its proper functions, that it is now looked upon as the greatest Specific for Hepatic; and many physicians use it in their regular practice. Among others, Dr. Oliver Morgan, a distinguished physician of Virginia, with a very extensive practice, has used these Pills in cases of Liver Complaint, and of Dyspepsia, with complete success. Recommended as it is by physicians, as well as others, who have witnessed the happy effects of this medicine, it is not surprising that we are daily in receipt of such missives as the following:—
CARMICHAEL, Ohio, January 23, 1851.
Messrs. J. Kidd & Co.—We are nearly out of M'Lane's Pills. It would be well to keep us supplied, as there is a great demand for them in our place. COBB & CLARK.
For sale by most of the Druggists and Merchants, and by the sole proprietors. J. KIDD & CO.,
mar19-d4w 60 Wood street.
