Pudder & Ford,
MANUFACTURERS AND DEALERS IN
MANCHESTER MINERAL PAINT,
ALLEGHENY CITY, PA.

Office, No. 67 Wood street, Pittsburgh, December 15, 1851.

I have analyzed a sample of MANCHESTER MINERAL PAINT, for Pudder & Ford, and find it to contain the following:

Silica,	67,21
Alumina,	5,64
Per Oxide of Iron,	18,41
Lime,	68
Magnesia,	2,14
Oxide of Manganese,	12
Water and Loss,	5,00
	100,00

The Powdered Sample, contained in the box, which I opened on the one you Ordered me to take for analysis, I find to differ from any average of the lumps powdered, and mixed together. This last yields as follows:

Per Oxide of Iron,	38,56
Silica and Alumina,	53,00
Lime,	68
Magnesia,	16
Water and Loss,	7,96
	100,40

This difference I presume arises from the mineral not being uniform, some portion containing more iron than others. The analysis shows the article to be well suited for a durable paint. I find that, by calcining the powder by a gentle heat, the color is much improved, and it would be converted into a fine red.

JOSEPH LIPPINCOTT. WM. G. BARR

Lippincott & Barr,
(LATE J. S. STAMBAUGH & CO.)
MANUFACTURERS OF FLUCKNA-RIKE PROOF SAFES, No. 61 Second Street, between Wood and Smithfield, Pittsburgh.

On Tuesday afternoon, July 25, 1848, the undersigned were called upon by Messrs. Lippincott & Barr, to witness an honest test of the merits of their Fluckna-Rike Safe. The furnace being prepared, the Safe was placed inside thereof, with Books, papers and some money; when the door of the Safe was closed and the fire kindled at 4 o'clock, P. M., and kept at a red heat for three hours—the Safe was red hot, and continued till half past 6 o'clock, being about four and a half hours, when the contents, Books, papers, &c., were found in the Safe, and the money, with such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money in the Safe, were not burnt, but saved, all the brass mountings. We therefore feel pleasure in recommending these Safes to the public, as being the best manufactured, entirely fire proof.

I am engaged in the foundry business, and know something about iron, heat, &c. I witnessed the burning of one of the above Safe, and can freely say there was no humbug about it, and with pleasure recommend them to the public as being, in my judgment, entirely fire proof. WM. KAYE.

In calling upon the above gentlemen for their signatures, they all spoke in the highest terms of the firmness of the test, and their full confidence of the Safe's being entirely fire proof. We have constantly on hand and for sale a full assortment of the above safes. [marly
