We are a great people. We are the country of enterprise and Yankee notions. This fact is illustrated in the case of the new issue of Post Office stamps. A Mr. NESDITT got the contract but not satisfied with the job, he has placed an advertisement of his business upon the stamp .-To this the merchants of the cast object, and he has at last requested "permission" to withdraw his advertisement from the envelope. . We suppose the department has kindly consented to his request, and we would not be surprised to hear that the shrewd head of that branch of the government had admonished him as to the Impropricty of "killing two birds with one stone"for circulating a universal advertisement of his business. But he has requested "permission" from the Department to desist from further ad

ernment. We believe it has been granted, and hope that the mind of Mr. Nesbitt is now easier By reference to our advertising columns, i will be seen that the lettings of contracts on the Pittsburgh, Maysville and Cincinnati Railroad, between the Muskingum River and the Central Ohio Road, have been postponed until the 20th | Democrat.

MAJOR LEWIS CASS. The citizens of Detroit, without respect to party or religious creed, on the 28th ult., invited in a letter to Major Lewis Casa, Charge to Rome, tendering him a public dinner, as a testimony of respect for him as a distinguished citizen and as a foreign minister. Major Cass replied in an eloquent letter, declining the honor, and says that under happier circumstances he should have been gratified to meet his old neighbors and friends. Major C. states that "whatever other lesson may be learned by the American resident abroad, he cannot fail to appreciate the value of our glorious institutions by the contrast which meets and surrounds him, from his first to his last step upon the soil of Europe. And he must return to his country more proud of her

Reaping and Mowing Machines. From the Germantown Telegraph we learn that the trial of reaping and moving machines, which took place on the 20th ult. at the farm of Dr. James McCrea, at Flourtown, Montgomery County, was very well attended by farmers from the counties of Montgomery, Chester, Bucks, Delaware and Philadelphia. Among the spectators was Professor Wilson, one of the British Commissioners to the New York Exhibition, who is said to possess much knowledge of agriculture, and who appeared to feel much interest in the operations of the day. For mowing but two machines entered; and of these, Ketchum's proved the favorite. For reaping, but three machines entered, two of Hussey's patent, and one of Seymour's. The former worked admirably, but required seven men to bind and clear the track for each machine, as it throws the grain behind instead of at the side. The Norristown Herald says that the trial was unsatisfactory to the spectators, and the Germantown Pelegraph conveys the same impression. The

Judges were: Edwin Moore, of Montgomery: Jonathan Roberts, of Chester; Isaac Thomas, of Delaware; Wm. Lukens and Geo. Brinton, of \$60 to Seymour's combined mower and reaper; water, and \$85 to Ketchum's mower, and \$20 to Hussey's drowned. combined mower and reaper. According to the Bucks County Intelligencer, 2000 spectators were present. The whole affair was under the direction of a joint committee appointed by the Agricultural Societies of this and several adjoining counties. From the Wayne County Democrat of the 7th
