Citizens and strangers are invited to call and examine specimens and Palatypes. jy20

Fidler & Ford,
MANUFACTURERS AND DEALERS IN
MANCHESTER METALLIC PAINT,
ALLEGHENY, CITY PA.

I have analyzed a sample of MANCHESTER METALLIC PAINT, for FIDLER & FORD, and find it to contain the following:

Silica,	57.21
Alumina,	5.34
Oxide of Iron,	18.41
Lime,	1.12
Magnesia,	2.21
Oxide of Manganese,	1.20
Water and Loss,	8.60
	100.00

The Purchased Sample, contained in the box, which I suppose was the one you furnished me, I have analyzed, I find to differ from any average of the lumps powdered, and mixed together. The last yields as follows:

Per Oxide of Iron,	33.50
Silica and Alumina,	63.00
Lime,	83
Magnesia,	1.33
Water and Loss,	7.00
	100.46

This difference I presume arises from the mineral not being uniform, some portions containing more Iron than others. The analysis shows the article to be well adapted for the purpose for which it is intended, and that by calcining the powder by a pretty high heat, the Paint may be improved, or at first converted into a fine rust.

JAMES R. CHILTON, M. D., Chemist.

☞ For Sale by JOEL MOHLER, 211 Liberty street. mar14-y

Lippincott & Barr,
(LATE J. A. STRICKLER & CO.)
MANUFACTURERS OF FIRE PROOF SAFES,
Second Street, between Wood and Smithfield,
Pittsburgh, Pa.

Tuesday afternoon, July 25, 1848, the undersigned were called upon to open and test the safe of Mr. R. SHRIBUGO, and fair test of one of their Fire-tit Safes. The house was entered in the presence of the Mayor and a number of citizens. The safe was placed inside thereof with Books, papers and some money in it. The fire was kept intense for two hours and the fire kindled at a quarter past 9 o'clock, and it was not until a quarter past 11 o'clock that the safe was cool enough to admit of its being opened. It was not until 2 o'clock, being about four and a half hours, that the safe was opened. We therefore certify that the time complied with the requirements of the law, the furnace was then pulled down, safe cooled, and door opened in presence of many citizens. The heat was so great as to melt off the brass Calf Skins, and Morocco lining and Binding Skins; Morocco Lining and Binding Skins; Tannery Oil, and money safe. The heat was so great as to melt off the brass Calf Skins, and Morocco
