Marbleized Iron
Mantles, Columns, Pedestals, Table Tops, &c. &c.

THE SALAMANDRINE MARBLE COMPANY invite public attention to their Marbleized Iron, as one of the greatest discoveries of the age, and for which discovery they received the GOLD MEDAL at the last Fair of the Metropolitan Mechanics Institute, held at Washington, in February and March of the past year.

This material, having a metallic basis, is more durable and cheaper than Marble; its representations of precious Stones and the choicest Marbles are perfect in every different variety, are exact and surpassingly beautiful; it is not injured by the action of acids or oil.

SPIRAL SPRING MATTRESS,

FIVE SILVER MEDALS AWARDED, VIZ:—

THE peculiar improvement in the construction of this Mattress is, that all the common springs and hurtful stuffing are entirely dispensed with, and its place supplied by a lighter and much more durable frame. The springs are all connected by harness leather straps, securely fastened, and, therefore, impossible, for a single spring to fall down or get out of place, and making a bed so elastic, that all sprains may be relaxed or benefited, and is the most delightful to the weary of the sick or asthmatic, who may repose on a sitting posture. It is the best ventilating mattress for hot weather bed, with the lightness and facility of motion of a feather bed, and is larger than any other.

These improved Spring Beds are invariably made of the best materials, and will last many years without repairs.
