IMPORTANT TO HOUSEKEEPERS!

Something Better and more Economical than Saleratus, Cream Tartar or Yeast Powders in existence for Baking.

DURKEE'S CHEMICAL YEAST, OR BAKING POWDER, for making Light Rolls, Muffins, Rusk, Biscuit, Cakes, Puddings, Pot-Pie, Corn Bread, Sweet Cakes, Apple Dumplings, Paste, &c. This article is one that every family will find useful. Try it, and be convinced.

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed* to make light, sweet and healthful food.

It possesses the following advantages over the old system, and is most important advantages over the old system, and is the most important advantages:

1. It saves the expense of milk, eggs, shortening, yeast or saleratus, and the trouble of procuring good yeast, or soda, which, with their capital and premiums, safely invested, afforded additional protection to the insured.

2. No time is required for the dough to *rise* before baking in cold weather, as it may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread, biscuit, rolls, &c., if this article be used, which is the best quality ex ect.

4. Bread made by this process is much more nutritious, more easy of digestion, healthful to the weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by Durkee's Baking Powder, does not afford the least nourishment to the system; that it does when made with this compound; because the vegetable acid contained in ferment is destroyed, prevents the process of fermentation from taking place in the dough, and consequently, a part only goes to nourish the body, while the acids tend to produce upsets and to the stomach, &c.

6. Bread made by this process is much more nutritious, more easy of digestion, healthful to the weak stomach, sweeter, whiter and lighter, than when made with yeast.
