IMPORTANT TO HOUSEKEEPERS!

Something Better and more Economical than Soda, Cream Tartar, or any other Preparation in existence for Baking.

DURKEE'S CHEMICAL YEAST, OR BAKING POWDER—For raising Bread, Biscuit, Griddle and Johnny Cakes, Puddings, Pastry, &c. This article is one that every FAMILY, HOTEL, BOARDING HOUSE,

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed* every single day of their existence.

Its most important advantages over the old system, consist in the following facts, viz:

1. It saves the expense of salts, eggs, shortening, yeast, bread, and the trouble and expense of procuring good yeast, —water only being necessary.

2. No time is required for the dough to *rise* before baking; consequently, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by the process is much more nutritious, sweeter of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread is healthy fermentation, does not affect the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, or you will not be satisfied. Principal and sole office, 191 Water street, New York. Sold by the the best grocers and druggists generally.
