OUR COUNTY TICKET. Our line of battle is no w complete. We present to day our county ticket, which was formed with care by the Democratic Convention yesterday. The campaign is to be but a short one; but we have time chough for success, if democrats over the whole county will do their duty The democrats never had a better chance to secure their just share of the county officers, and thoir just participation in the county government, than they have this year. We can succeed with a part at least of our ticket if all men of one party will do their duty. We will do ours without hesitation, without fear, and with-

out dictation. We want to see Dr. McClintock in the Senate. He has had experience as a legislator. He is faithful Senator. But the people know the Doctor; and he needs no endorsement from us. Capt. John Birmingham for County Treasurer Everybody knows that that will do. A better iation could not have been made. But the people know him too, and can trust him. But we cannot go through with the ticket to-

We rather suspect the "country delegates were not set" this time, or we should not have got so excellent a ticket.

We shall only ask our whig friends, and the the score of competency. Mr. Roberts has experience, and a perfect familiarity with the business of the courts; and in most parts of the county he has been heard as a speaker. That office has become one of the most importcrime, and the large number of crimes of a high and Howard were withdrawn in the following grade-that occur at every term of the court, makes it of the utmost importance that we have an experienced, able and industrious lawyer in that office. Competency should be the test with all good citizens, in voting for that office. Let the people decide by that test, and we have no

fears for the success or our candidate. We shall speak of the balance of the ticket NEWS AND COMMENTS. Eighty-saven deaths from yellow fever in New Orienne, on Saturday last. Friday was observed

CRAWFORD COUNTY, -The editor of the Mead ville Democrat appears to be deeply in love with his beautiful Borough. Hear him talk about it: No stranger ever visits Meadville without expressing his admiration of its locality. There is an air of business about the place, that strikes the visitor favorably at once, while the taste displayed in every direction attracts attention. There is a healthy prosperity evident to the most casual observer, and it has obtained for our place abroad a well deserved reputation. If Mendville is half as handsome as the editor who praises it, it must, indeed, be beautiful.
