Property for Sale.

THE subscriber offers for sale, on very reasonable terms, the following property, viz:

A Three Story Brick Dwelling House, No. 116 Penn street, between Hay street and Evans' alley; and Lot 23 feet front, extending back 95 feet to an alley. The House is one of the best buildings, and in one of the most pleasant neighborhoods in the city.

Five Lots—embracing corners of Front and Ferry streets; one hundred and five feet front on Ferry and sixty feet on Front street, with a good three story Brick Building on the corner, a two story Frame on Front st., and two Brick Buildings, used as shops, on Ferry st.

A Lot, 20 feet front by 80 feet deep, on Front, between Market and Ferry streets.

A Lot, with very convenient Frame Dwelling; Lot 20 feet by 80, fronting on Coggeran and Ross sts.

A House and Lot, on Wylie street, near the new Court House. The House is well arranged and in good order, and is now occupied as a hotel.

A Three Story Brick, on Smithfield street, near Seventh—being in an excellent business location. The Lot is 20 by 80 feet deep, fronting on Smithfield st.

A Cottage Frame and Lot, 25 by 120 feet, fronting on Anna st. Rolling mill streets, Allegheny City. This is a very desirable and pleasant location for a residence.

Nine Lots in the town of Allegheny, each 60 feet by 150. Several of these are on the Main street.

Eleven Acres in Limetown, on the Monongahela river, whereon is a two story House; there are some four or five acres of excellent stone coal, and abundance of limestone, convenient to the landing; and two coal pits open.

Seventy Lots in the town of Columbia, 60 feet by 150 each, nearly all level, and well located. The tenant of each Lot has the privilege of using whatever stone coal he may require for his own use, from a pit near the Lots. Columbia is a pleasant situation on the bank of the Monongahela river, at the village below Lock No. 3, in the midst of an extensive stone coal region, and would be a desirable point for manufacturing establishments.

Two Lots, with frames of superior Stone Coal, with House, Railroad, &c. This property has a front of 140 rods on the Monongahela river; an excellent landing; good grade and formation for railroad—with enough level ground at one point for houses and gardens, or locations for manufactories.

The vein is deep enough to allow horses to be used in hauling out the coal—the quality of which, for iron work, steam, gas, or for any ordinary uses, is not surpassed by any in the country.

In my absence, my agent, James Blakely, Esq., will give all necessary information, and to authorized to give warrantee deeds for any property sold. NOAH MAY.

IMPORTANT TO HOUSEKEEPERS!

Something Better and more Economical than Soda, Cream Tartar, or any other Preparation in existence for Raising Bread.

DURKEE'S CHEMICAL YEAST, OR BAKING POWDER—For raising Bread, Biscuit, Griddle cakes and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c. This article is one that every FAMILY, HOTEL, BOARDING HOUSE,

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, from a careful trial, to be the *very thing needed every single day of the year.*

Its most important advantages over the old system, are—1. It saves the expense of salt, soda, cream, shortening, spoiled bread, and the trouble and expense of procuring sod yeast, —water only being necessary.

2. No time is required for the dough to *rise* before baking, consequently, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much, more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The great trouble by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce pounds and fit at stated hours.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted* to suit.

Agents—To careful tasks for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 130 Water street, New York. Sold by the trade and grocers and druggists generally.

A. J. GILLETT, Secretary.

Will insure against all kinds of risks, FIRE and MARINE. All losses will be liberally adjusted and promptly paid.

Its institution, managed by Directors who are well known in the community, and who are determined by their prompt ness and liberality, to maintain the character which this company has generally, with the estimation of the public, find my present stock getting very low.

Respectfully,
Prepared and sold by E. A. FAHNESTOCK & CO.,
