SALE OF THE PUBLIC WORKS. of some speculating company, who stand ready faithfully also. to take the property of the State, that has cost over twenty-five million dollars, for a mere trifle, and make a splendid speculation out of a deceived and defrauded people. If our Whig friends had a few horses to sell would they publicly assure all purchasers or bidders that they were utterly worthless; and, that their services and earnings would not half pay their keeping? We think not. And yet this is the course pursued by the advocates of the sale of these expensive and valuable works. We have no objections to the sale, if a fair price can be obtained. But wo deny, in toto, the unfounded assertion that tiey are worthless; and we protest against the people of our Commonwealth being cheated out to-day nearly all they cost, and that will become, as soon as completed, among the best paying public improvements in this Commonwealth. Sell them, if the people will have it so: but let them not be sacrifised, to glut the avarice of some scheming and speculating corporation. We intend hereafter to lay before our readers

THE MONE'S REVERCE -We have received from the publishers, De Witt & Davenport, New York, through B. T. C. Morgan, Bookseller, Pittsburgh, an interesting novel entitled "The Monk's Revenge, or the Secret Enemy, a Tale of the late Crusades," by Samuel Spring, Esq. We like a novel of the "olden time," and the author of this book has selected a period of the world's history, and persons, scenes and events, that cannot fall to make his work interesting and profitable to all readers. The book is well written by a popular author; and we have no doubt it will have a large sale, and many admirers. The scene is laid in Eastern Europe, in the days when the Cross and the Crescent were contending for the mastery of the world. Two faiths, and two forms of society are brought under the eye, and the turban and the helmet, the lance and the cimetar, are seen struggling desperately for some of Europe's fairest realms. The carly history of the Turkish Empire in Europe becomes more interesting now when its overthrow is threatened by one of the mightiest potentates of earth. We have read far enough in this book to know that we shall have to read it through. It is too good to be laid aside half

Those having a dread of mixtures are assured that this medicine is purely natural, and is bottled as it flows from

also appended the certification the celebrated D. F. Poof, M. D., of Syracute:

This may in truth certify, that I have been so hadly at flicted with Scrotule for the leatwaven years that most of the time I have been unable to attend to any kind of business, and much of the time unable to wilk and confined to my bed, and have been treated nearly all the time by the best Physicians our country affords; I occasionally got some relief, but no cure, and continued to grow worse until Dr. Foot recommended me to try the Petroleum, or Rock Oil, as everything else had failed. I did so without faith at first, but the effect was astonishing; it threw the poison to the surface at once, and I at once began to grow better, and by using seven bottles I have got a cure worth thousands of dollars.

This may certify that I have been acquainted with Kier's Petroleum, or Bock Oil, for more than a year, and have repeatedly witnessed its beneficial effects in the cure of indolent ulcers and other diseases for which it is recommended, and can with confidence recommend it to be a medicine wor. and unever an other disease for which it is recommended, and can with confidence recommend it to be a medicine worthy of attention, and can easily say that success has attended its use where other medicine had falled.
