people of New York, that without their great position and power. We incline to the belief, hope they will attend to the above notice. that were the State of New York to step entirelight of the sun instead of basking and rejoicing family of John Rodgers. in the more effulgent light of the New York Herald. Then too, what would become of us without Wall street and the Drapers, to regulate our finances? We don't know. It is a doubtful case, and almost too painful to think of. But still we contend that the country could manage somehow to survive the loss of the Empire State. We are not sure but the democratic party would

We have been led to these remarks by the high tone adopted by the New York press and politicians of late. In financial and political affairs they assume to have control of the country. A stock speculator fails in Wall street, and the Herald predicts a general bankruptcy over the of Customs in that city, and forthwith he bids dedignation meeting in the great metropolis, if the linst. vernment removes bim; and the New York of HENRY M. SWIFT, Esq., a member of said Herald instantly demands the dismissal of the Rar Secretary of State, the Secretary of the Trea. change in the policy of the administration. The Secretary.

On motion of Mr. Williams, it was dest request is declined, and an indignation meeting is called " without distinction of party." The whigs turn out, en masse, and assist in shouting. A throng of Gothamite politicians immedigovernment are not likely to stop, they become

out of the way.

Tribune failed to elevate the General; but that, tions to the parents of the deceased, and that a of course, was because the Herald opposed it But the two combined, it is believed, could make a President without any doubt. the escape of meaning and soory games also the reals, so are powing to the occupants, and so injurious to the health and formiture.

The air to be warmed is taken directly from the outside of the building in all cases, thus insuring a supply of pure, wholesome air for breathing, and the other important functions required by the human system—the oxygen is not affected, nor the organic matter in the air carbonized by coming in contact with an over-heated surface, as with other furmaces, and headsches and other disagrecable sensations are prevented by this means—and in consequence of the warm air not making too large demands upon the lungs and evaporating surface of the etgin, to emply the moisture which it has leet in passing over a red hot surface. In proof of this, attention is called to the certificates of Profesior Silliman, of Yale College, New Haven, and to those of other scientific persons who have examined this subject. If public and outereral approval is any test of merit, the proprietors of this valuable Furnare can appeal to the written testimony of thousands, to the press, and to public axiabitions in all parts of the world, it having received the Frixa Medal at the World's Fair, and the highest Promiums at Fairs in New England, New York, and a Silver Medal at

on of Measrs. Beimonte and Danies, by the hovernments to which they have been respectively accredited: and also, that Mr. Soule was spected to reach Madrid on the 10th or 12th.

Prizo Medal at the World's Pair, and the highest Promium at Fairs in New England, New York, and a Silver Medal at the State Agricultural Pair in Pennsylvania and Sould by Manufactured and sold by ARNOLD & WILLIAMS, now. Agricultural Pair in Pennsylvania and Ya.

Cox on Botts.—The Ohio Statesman is saying all the witty things now-a-days. Hear Cox on Botts, and his own fetlooks:

"What's in a name?" John M. Botts is one of a committee on horses, at the Spring.

"We would be seen the street. It is a name to be seen the seen of a committee on horses, at the Spring.

"We would be seen the seen the seen the seen of a committee on horses, at the Spring." It is an edited by W. Hazlet.

Mr. Rutherford's Children: by the author of the "Wide, Wide World," 12mc, butterfeed. g7,000,000 30 held exhibition. If we were a norse we should kick against Botts if he came about our fet-locks.

Scrofula. It is due to KIER'S Petrocem to
sy that it has been known to completely eradicate
very vestage of this dreadful disease in less time than any
other remedy, and at less cost or inconvenience to the paient ant.
The thousands of certificates in the hands of the proprie merits.

Those having a dread of mixtures are assured that this medicine is purely natural, and is bottled as it flows from the bosom of the earth.

The following certificate is copied from a paper published at Syracuse, N. Y., and bears date August 2, 1852, to which is also appended the certificate of the elebrated D. Y. Frof, M. D., of Syracuse:

also appended the certificate of the celebrated D. Y. Frot, M. D., of Syractus:

This may in truth certify, that I have been so badly afficted with Scrofula for the last seven years that most of the time I have been mable to attend to any kind of business, and much of the time unable to walk and confined to my bed, and have been treated nearly all the time by the best Physicians our country affords; I occasionally got some relief, but no cure, and continued to grow worse until Dr. Foot recommended me to try the Petroleum, or Rock (ii), as size rything else had falled. I did so without faith at first, but the effect was astonishing; it threw the poison to the surface at once, and I at once began to grow better, and by using seven bottles I have got a cure worth thousands of dollars.

MRS. MANOY M. BARKER.

This may certify that I have been acquainted with Kier's Petroleum, or Rock Oil, for more than a year, and have repeatedly witnessed its bensfield effects in the cure of indo-lent ulcers and other diseases for which it is recommended, and can with confidence recommend it to be a medicine wor.

ent ulcers and other diseases for which it is recommended, and can with confidence recommend it to be a medicine wor-thy of attention, and can safely cay that success has attend-ed its use where other medicine had falled.
