Round the World Quick.

"Put a girdle round about the earth in forty minutes."
William Shakspeare, who was born on the banks of Avon, in old England, but whose thing like the above quotation, "long, long ago." His bones have slept for centuries in his native find it a prophecy, and a prophecy falfilled. Shakepeare must have had a prophetic view of the wonders that science and electricity were the Liverpool of China, running through northern China, Liberia, and Kamschatka, would reach Bherings Straits. Across those straits, 38 miles a submarine telegraph could easily be laid to the American shore. Thence through the Russian possessions, British America and the United States, it would reach New York. A submarine telegraph is already proposed across the Atlantio. That completed, a line across Europe and Asia is easily accomplished, and, with the changes going on in the political condition of the old world, such a line can be safely constructed before many years. The "girdle round about the earth " will then be complete; over which communication could be sent "in forty

minutes " We have accustomed ourselves to the belie that it is unsafe to doubt any thing in the line of wonders foretold, and yet to be accomplished, by science and electricity on earth. And that they can accomplish the results above mentioned, and the chain of communication "round about the earth," which we have described, we think possible. If the work is delayed beyond the time we have supposed, political and not scientific reasons will be the cause of

> NEWS FROM THE SEAT OF THE WAR. -- According to the Washington Union we can place little re liance upon the first report of any battle that may take place between the Turks and Russians. There are but two routes by which speedy in telligence can reach western Europe from that quarter. The first and quickest of the two routes is by couriers and telegraph to Vienna: and from thence to St. Petersburgh, and Paris and London. This route to Vienna is under Russian control, and a defeat would probably be reported by them as a victory; as they did in their account of the last battle with the Circassians. The other route for the news is by well trained carrier pigeous from head quarters to Constantinople; and thence to Paris and London. As the French and English are the Saltan's allies, cor-

rect information would be sent. But it will require more time by this route. The first report of military operations and battles then, may be very materially corrected by a second report coming a few days later. These are the facts of this infamous outrage, From Shanghai to New York, then, the time is thus reduced to eighteen days. Fourteen of those days are to be employed in crossing the Pacific by the steamers. That report was made before the late improvements were projected in the construction of steamers, by which it is proposed to nearly double their speed, by increasing their size, tonnage and length. And now, we ask the citizens of Detroit how long they will permit this disthat by such steamers the time from New York to Liverpool will be reduced to about six days.

Reduce the time required in crossing the Pacific by withholding the means by which it is susin the same proportion, and the time required tained. Against a well managed theatre, by from Shanghai will not be over ten and a half respectable men, we have no prejudice. But the

OCCUMENCE, N. V., January 13, 1853.

Mestra B. A. Fithnetice & O.—Gentlemen: Matthew Clark, a man of undoubted veracity, of the town of Lisbon St. Lawrence county, N. Y., says that he has a little girl four years old, to whom he gave three dozes of B. A. Fahn estock's Vermifuge, in three successive hours. In the atternoon of the same day she-passed at one time BEVEN TEEN, and at another NINETEEN WORMS. About we oldock the following night, she passed the incredible number of FIVE HUNDRED AND TWENTY-ONE, making if all five hundred and fifty-goven, in less than twelve hour ber of FIVE HUNDRED AND TWENTY-ONE, making in all five hundred and fifty-soven, in less than twelve house time. He said they were perfectly astonished at such a mass of worms from a child of her age, and that he counted them accurately. Yery respectfully, JENNER & BANDALL, Druggists. Kurs—Deer Sir: Myself and wife having been greatly benefitted by the use of your Petroleum, I wish to have you send me a box of two or three dozen bottles. I am the Congregational Minister in this place, and several of my people are affected with indigeation and an inaction of the liver, the same of myself and wife, before taking your Perroleum, os Rock Oil. We took several bottles—two or three cach—about a year and a half ago, and we have mover enjoyed so good health for years as we have since that time. I had not taken a single bottle, before that fullness of the stomach which so distresses the dyspeptic was relieved, and I have felt nothing of it since that time. My wife was also relieved from a chronic disease of the liver, which had been of several years standing, by the use of your Petroleum.

merits.
These having a dread of mixtures are assured that this medicine is purely natural, and is bottled as it flows from the bosom of the earth.
The following certificate is copied from a paper published at Syracuse, N. Y., and bears date August 2, 1852, to which is also appended the certificate of the celebrated D. Y. Foot, M. D., also appended the certificate of the celebrated D. Y. Foot, M. D., of Syrucus:

This may in trath certify, that I have been so budly affileted with Scrofula for the least seven years that meet of the time I have been unable to attend to any kind of business, and much of the time unable to walk and confined to my bed, and have been treated nearly all the time by the best Physicians our country affords: I occasionally got some relief, but no cure, and continued to grow worse until Dr. Foot recommended me to try the Petroleum, or Rock Oil, as everything else had failed. I did so without faith at first, but the effect was astonishing; it throw the poison to the surface at once, and I at once began to grow better, and by using saven bottles I have got a cure worth thousands of dollars.

This may certify that I have been acquainted with Kier's Petroleum, or Rock Oil, for more than a year, and have repeatedly witnessed its boneficial effects in the cure of indeficient control of the commended and can with confidence recommend it to be a medicine worthy of attention, and can eately say that success has attend-
