The Ships of this Line are fitted with Emerson's Patent Ventilators, and carry Francis' Metallic Life-boats.

The Baltimore Clipper Bark INCA,

900 TONS BURTHEN,

Ilaying male two successful ropages from China, each in the very short period of 101 days, has thoroughly established for reputation for fast sailing, and will be dispatched for MELBOURKE. AUSTRALIA,

About the 25th of August. The Ships of the Floneer Line have made remarkably quick and healthy voyages; losing only one passenger among 950 that sailed in the first five whips, whereas it appears from the report of the Emigration Commissioners that the mortality on board English ships to Australia has equalled 4.00 per cent. This very gratifying result shows that no care and expense have been spared in selecting, ventilating, and provisioning the ships of the Pioneer Line.

The INCA willonly carry a limited number of passengars, at as moderate rates as are consistent with justice to passengers and owners.

For freight or passage, apply on board, at Pier 12, E. R., or to

THE peculiar improvement in the construction of this Mattrans I settinger, and heavy records in the restriction of this Mattrans is, that all the clumicy and heavy records in mirror dispensed with, and its place supplied by a lighter and much more durable frame. The springs are all connected by harness leather hinges, eccurely rivotted, rendering it impossible for a single spring to fall down or get out of place, and making a lied so elastic that any part may be raised or bent up, and is thus admirably fitted to the wants of the sick or astimetic, who may require a sitting posture. It has all the luxurious softness of the best feather bed, with the lightness and facility of handling of the common hair mattress. Octo
