John Most Important News! whether the co-operation of the Allegheny Valley Company could be looked for in building a bridge Enquiring whother the co-operation of the Allegheny Valley Railroad Company could be looked for in building a bildge over the Allegheny river, at Sharpeburg. Gov, Johnston replied in the following manner: "The Allegheny Valley Railroad Company unquestions and the second second second second second second by has an interest in the construction of bridges across the Allegheny river. The erection proposed will' necessarily bring to our road near its eastern terminus a considerable manuated buildings from the spools shide of the river. A densely populated region already largely engaged in mann-facturing industry, and with a woll farmed country around the demands the most improved kinds of approach to the markets of Pitteburgh. This avenue can be obtained in no better way, than by the construction of asubstantial bridge, to arranged as to admit of a railway track upon it, to be ponnetted with the works and business operations, at or noar Sharpaburg, and with a two Yalley Railroad. " "Our company would not feel authorised to make a rub-scription to any work, while our road is unfusided; but J scription to any work, while our road is unfusided; but J st size i guage of tracks to be hid down thereon, our com-pany will be propared to pay a fair and liberal compensation for the privilege of laying down and using a railway ances at so that passengers and freight may be trengrofied be-tween our road and the county north-west of the river." Now so popular in our city, as well as every other pince where they are used, needing no other recommenda-tion than a trial, and they will speak for themselves.
