Eleven Acres in Limetown, on the Monongahela River, on which thure are 4 houses; there are some 6 or 7 acres of excellent stone coal, and abundance of limestone, convenient to the landing; and two coal pits open.

Ninety Lots in the town of Columbia, 60 feet by 150 each, lot has the privilege of using whatever stone coal he may require for his own use, from a pit hear the Locks. Columbia is a pleasant situation on the bank of the Monongahela river, a short distance below Lock No. 3, in the midst of an extensive stone coal region; and would be a destrable point for manufacturing establishments.

Two Hundred acres of superior Stone Coal, with House, Ralitrad, &c. This property has a front of 140 rods on the Monongahels river; an excellent landing; good grade and foundation for railroad—with enough level ground at one point for houses and gardens, or locations for manufactories.

The vein is deep enough to allow horses to be used in handing out the coal—the quality of which, for iron work, steam, gas, or for any ordinary uses, is not surpassed by any in the TEN LINES NONPAREIL, OR LESS: heap, and it soon melts into a mass of garbage, and by the end of the year the bottom of the pi ill.

FRENCH and AMERICAN WINDOW GLASS.

Druggists and others in want of any of the above mentioned articles, will find it to their interests to call, as our facilities for manufacturing and purchasing, and our experience in the business, give us advantages in selling over most of those in the same line.
