To the Hoporable the Judges of the Operator Country.

The Grand Jury, before closing their session, and with an ardent desire to advance the interests of the county, and faithfully and efficiently to discharge, their solemn obligations, would hereby respectfully report, that they have acted upon two hundred and eighty-four precentments; true bills were found in two hundred and forty-nine cases, and the remaining thirty-five ignored; we were careful to note the bright of svery cause of complaint, and find that, in almost overy instance, it may be traced to the great parent of evil, yiz. Rux—as the predocing cause of so much litigation and crime. We, therefore, believe that the present license system is a tax upon our county in-fold greater than the revenues arising from the granting of licenses, and the fines collected for violations of the license laws; it is, therefore, manifest that the interests of the people of this county, physically, morally, and pecuniarly require the total repeal of the laws relative to license for selling fluor, and the passage of an act prohibiting the traffic altogether.

A reform is much needed in this particular.

Upon inquiry of the County Anditors, we have been estounded to find that there has been paid out of the county treasury, within the space of one year, to a single Alierman of the city (without enumerating others,) the sum of \$727 88, for fees in cases where magistrates have authority to impose fines, and not a single dollar paid into the treasury for fines imposed by magistrates for various offeness. Our stiention has been directed to the immense and continually increasing amount of property, owned by rarious religious denominations, exempt from inxulion. The property thus released is frequently very unequality apportioned; while some have large sites with costly edifices created thereon, others are of a very different character; but were it otherwise, we can see no sufficient reason for such exemption. We, therefore, recommend as just and equitable that of a remarkable character. It is reported to be must be a sufficient excuse for our brief review of the marshould be generously sustained. Dr. J. S. Rosr's Medical Advisor to Personsin Sickness and in Health, with an Almanac for 1852.—This publication is from the pen of an eminent physician of Philadelphia, a regular graduate of the Medical College, and an knonvary-member of the Philadelphia Medical Society. It contains much good advise to invalids, as well as persons in health. It also describes in a comprehensive manner, the discases of our variable climate, and the mode of treatment. No family should be without a copy of this book. It can be had, without any charge, at the various drug stores in this city, where Dr. Rose's valuable Family Medicines are for sale.
