The Sixth and Seventh Wards of Pittsburgh are rapidly increasing in population; and the prospects for the future are highly encouraging Braddock's Field Post Office. Our friend Wilto property owners in that part of our city. There is quite a change going on in the condition of the city, which is becoming every day more apparent. The ground in the four old wards is of late in great demand for railroad depots, and sites for hotels and business houses; and people are consequently seeking residences in the upper or new wards of the city.

Within the last year, a large tract of ground foot of Third and Fourth streets, for another de- and essence of lemon. Stir in carefully a cofpot. The Connellsville Railroad Company, and the Pittsburgh and Steubenville Railroad Company have each purchased extensive lots of ground in the Second Ward for similar purposes. And as the business of those roads, when completed, increases, more ground will be needed; and more business houses and hotels will be required; and the people will be driven, by the force of high prices, to the upper wards, for lots

on which to erect dwellings. We understand it is in contemplation by several companies to creet one or two large hotels in Pittsburgh, as soon as desirable locations can be secured at reasonable prices. But "reasonable prices" is a term that means no old-fashioned prices of ten or fifteen years ago. From two to three hundred dollars per foot front with convenient depth, on our principal streets, is

now a common price. Few dwellings will hereafter be erected on streets, where lots bear such prices; when more as they will not dispose of the proceeds of their pleasant lots for residences can be procured at a much cheaper rate in the upper wards. They will be more pleasant because more distant from the dust and din of thronging business; and

from the roar and rattle of the railroad cars. This change and increase of value of ground are also driving manufacturing establishments out of the city. Bollman & Garrison's Foundry is already removed to Birmingham, and the Custom House occupies their former ground. Bakowell's Glass Works, and some other manufactories in that part of the city, will probably factories in that part of the city, will probably dred and seventy-five persons went down with soon follow, to make room for the depots of two the vessel. Mr R. E. Schrift—My wife has been for years subject to a distressing cough, accompanied with asthma, for the cure of which she used different cough remedies, and had the advice of the most eminent physicians in England, but all was unavailing. By chance I heard of your Imperial Cough Syrup, and was induced to buy a bottle for a trial, although I had no belief that anything could remove her complaint. To my great surprise, two doses gave her immediate relief. She is still, at times, troubled with a cough, but two tests poonfuls of your Syrup always stops it. I am satisfied that, after a trial of three or four years, Seliers Cough Syrup is the best cough medicine I have ere tried, either in the Old or New World.

| Indigestion and Liver Complaint | CURED BY KIER'S PETROLEUM.—Read the following letter from Rev. O. Dickinson, a Missionary in Correct Complaint of the Correct Compl Oregon:

Ma. J. M. Kier.—Dear Sir: Myself and wife having been greatly benefitted by the use of your Petroleum, I wish to have you send me a box of two or three dozen bottles. I am the Courge gallonal Aliniater in this place, and several of my people are affected with indigeration and an inaction the liver, the same of myself and wife, before taking ir Perrotzin, on Hoot Oil. We took several bottles—
or three sech—about a venr and a half ago, and we re never enjoyed so good health for years as we have to that time. I had not taken a slingle bottle, before tallness of the stomach which so distresses the dystile was relieved, and I have felt nothing of it since that the. My wife was also relieved from a chronic disease of liver, which had been of several years standing, by the of your Petroleum. by S. M. KIER, Canal Basin, GEO. H. KEYSER, 140
