Nothing of any importance was done in this Court yesterday. The morning ression was mostly inken up with an guments in regard to the postponement of the honicide and compiracy cases. In the afternoon, Michael O'Neal was tried on a charge of unisance, in throwing tan bark or Sigler, in his late merszee, and shown to be a question of State policy, and a very important one to the interests of Pennsylvania.

\*\*Resolved,\*\* That this meeting, with the highest appreciation of all that is due to our sisters New York and Obio, and with a suncere desire to maintain friendly funcrourse with them on just and equitable grounds, novertheless submit, that such corporations, the creatures of their laws, demand too much of Pennsylvania, when they essay to extend their roads through our territory, not only without but in despite of Pennsylvania legislation.

\*\*Resolved,\*\* That this meeting deprecates the slanderous and false statements to the prejudice of the speople and authorities of Erie, to which extensive currency has been given in and out of the Siste, as this meeting verily believes on the authority of retainers and ecryants of the Railroad companies, whiting extensibly as the regular correspondents of various journals both in the East and West.

\*\*Exolved,\*\* That the recent attempt to incorrerate two Pennsylvanians in the jail of our county for an alleged contempt towards a set of sub-deputy Marshals picked up in the railroad offices of foreign States, though it signally felled, for want of courage in the complainants to swear the case through the Court, should nevertheless receive the unqualified condemnation of every Pennsylvanian. And we congratulate our bretheron on their except from the toils laid for them by the hired agents of foreign corporations, who though lacking the necessary courage when confronted with their victims had been able a short time before to swear into jail four respects be cilizens.

\*\*Resolved,\*\* That the difficulties existing at Erie are to be attributed to the violation of solemn contracts by railroad companies of Pennsylvania companies of the aforeside proposition, and that the repeat of the charter of said company; and that the repeat of the charter of said company is not that the repeat of the charter of said company is not with the repeat of the charter of s PITTSBURGH, CINCINNATI, LOUISVILLE, days.

I BUM THE NATIONAL INTELLIGENCER, Washington City, May 15th, 1852:—
DR. J. S. Ross's Medical Advisor to Persons in Sickness and in Health, with an Almanac for 1852.—This publication is from the pen of an eminent physician of Philadelphia, a regular graduate of the Medical College, and an honorary member of the Philadelphia Medical Eociety. It contains much good advice to invalids, as well as persons in health. It also describes in a comprehensive manner, the diseases of our variable climate, and the mode of treatment. No family should be without a copy of this book. It can be had, without any charge, at the various drug stores in this city, where Dr. Rose's Talunblé Family Medicines are for sale.

DE J. S. Ross's Newvox and Invigorating Compat, the greatest discovery in medical cience. This astonishing preparation for raising up a weak constitution, debilitated by care, labor, study or disease, acts like a charm. It gives strength and appetite, and possesses great invigorating properties. For heart disease, all nervous affections, fistning the spirits, and giving power to the whole system, it is almost miracultous in its offects. Fifty centra buttle:

Dr. Rox's Chilerated Enmitt Medicines, and the Medical Chemical and Philosophical Apparatus. No freignt received parties.

Por particulars, apply on board, or to

JOHN B. LIVINGSTON, Agenta, Chemical and Philosophical Apparatus.

A VERY great want has been felt in our community, because our institutions of learning, or public libraries and reading rooms, have no Chemical and Philosophical Apparatus to enable the teacher or public lecturer on scientific subjects to illustrate his lecture upon. The Young Men's Library Association, at their late, annual meeting, recolved to take the necessary steps for obtaining such an apparatus, so as to fill the void so long felt. The following persons have been appointed as a committee to carry out the object proposed, and it is earnestly hoped that the cilizens, when called upon, will respond to the call by subscribing liberally.
