nearly one-half the globe. The people of the

From the National Intelligencer. The Daily Newspaper. In copsidering the moral significance of the

"The missionaries say that the Chinese boys take to the English language with the utmost facility, preferring it to the study of their own." The above extract from an exchange paper is very brief, and states a fact that at first view may command but little attention. A little re-flection will show that it is pregnant with mean-ing, and promise for the future. Of the four greatest, nations of marth, two speak the English language. And those two

are not only the most free and enlightened, but by far the most commercial nations of the world. England, by her commercial nations of the world. Integration of the world is the second commercial nations have rewarded one of them to great nations speak a common language and in that language is embodied all the best science and literature of the world. It is the insurance of the world. It is the wind and sea. We have lost, then, the insurance and intelligence. It is the insurance of the world. It is the insurance of the world. It is the wind and sea. We have the many failters in our efforts to create a steam navy for the com-the mathement of war is a familiar and habitual as the wind and sea. We have lost, then, the insurance and intelligence. It is the insurance and intelligence. It is the inaguage of science and intelligen

language of constitutional government and law. our efforts to create a steam navy for the coun-

in addition, to several other concurring causes, but in no manner to the one so commonly as-signed, namely, that the government built the ships in the public dockyards. The hulls of all, the evil, and out of this very generality of the ships in the public dockyards. The hulls of all, except the iron ships, were constructed in the naval bureaus; and for model, strength, and the purposes of war, these vessels in their hulls have not only never failed, but are, in fact, unequal-ed by any others now affoat. On the other hand, the engines and machinery of all but two small craft, (Waterwitch and Hancock) were built in private workshops and by contract. The engines, it is true, were for the most part designed by pressing." In all these blended aspects of the daily journal, we detcot the ultimate benefit, and it is true, were for the most part designed by pressing." In all these blended aspects of the the steam engineers introduced into the navy, daily journal, we detect the ultimate benefit, and full grown from the civil marine steam service. the moral significance of freedom. Whatever But, however, talented and able some of these evil may blend with its temporary influence, i But, however, talented and able some of these undoubtedly were, the subject of steam applied to war was new to them; they had not the twenty reagineers abroad to guide them, and they and the contractors failed for a time, (not yet gone by,) as might have been expected. And so with the naval administration. The method war was new to the divid and naval officer.

Anu so with the haval suministration. The a great social force — a force to be watched, to subject was new to the civil and naval officer. We had put off knowledge for twenty years, and whole is in their right direction.

STATE OF THE TIMES .- " Ah, Bill, times is Benator James Gooper has been elected Frest-guage to the Chinese with rapid success, as the dent of the Sunbury and Erie Railroad Company. 11. Teach them that the only way to appear recommends it to all. *.*See advertisement. good is to be good. 12. Accustom thom to make their little reci-

tals with perfect truth. 13. Never allow tale-bearing. 14. Teach them that self denial, not self in-

ulgence, is the appointed, and the surest method of securing happiness. 15. Guard them against the indulgence of all

angry and resentful spirit. 16. Above all, strenuously endeavor to give your children a knowledge of things instead of a knowledge of words. The rules are plain and simple enough, one

bravery. While in command of the Antelope (16 guns,) child attends to school, and learns by rote a few elementary rules, that all's right; not to mention a great multiplicity of words, about the meaning of which they know nothing ! oaly an admiralty vote of thanks was given to him, but also, by the officers on the station, a splendid sword, a notice of which I subjoin from This is all wrong, and hence the too many dunces at twenty, and the labor of the teacher gone. It is his duty to do so .-... Understandes thou what thou readest ?!' was a question put

was a question put A splendid gold-mounted sword has been prelong time ago, and should be kept in mind by every parent. There is much to be learned at A spiendia gola-mounted sword has been pre-sented to Capt. James T. Watkins, of Baltimore, by officers of her majesty's ships Columbine, Fury and Hastings, for the gallant assistance the family hearth .- North Carolina Old North State. which be rendered in the destruction of a Chinese piratical fleet on the 23d of September and 1st of Ostober, 1849. Capt. Watkins was at that 10 Major S. R. Hobbie, First Assistant Post-

master General, is lying hopelessly ill, of con-sumption, in Washington. It is said there was an affecting scene in the sick chamber of this time in command of the steamer Canton, on the coast of China, and while cruising in search of gentleman on the 19th inst. His daughter Mary

a missing vessel, came across a fact of junks, and the British war brig Columbine in pursuit. Ho made fast to the war brig, and towed her to a position where she war brig, and towed her to was there, in the presence of her prostrate and almost dying father, united in holy wedlock by the Rev. Mr. Butler, to Nathan Reese, Esq., of New-
