Democratic County Committee of Correspondence once are requested to meet at the ST. CHARLE HOTEL, on WEDNESDAY, 8th inst., at 11 o'clock, A.M. DAVID CAMPBELL, Chairman

COUNTY DISMEMBERMENT,

Vestmoreland counties. We suppose an effort will be made to pass such a bill this winter. No good reasons can be shown for the dismem berment of Allegheny county. A glance at the map is sufficient to satisfy any one that the present shaps of our county is the best that can be devised for the public accommodation. The city is accessible from all parts of it by easy and regalar modes of conveyance. The three rivers, almost constantly navigable for steamers, the canal, the two railroads already in operation, and the four other railroads in progress of construction, will furnish cheap, easy and rapid Manayunk. conveyance to this city from every part of the every direction from Pittsburgh, and farnish the willingness to his government to be transferred people of this county with more convenient access to a good market, to stores and manufactories, to the courts, and all the numerous occasions for visiting the county seat, than are enjoyed by the people of almost any other county in this State, or any other State. Six railty in this State, or any other State. Six rand bricks for the Washington Aqueduct, has been law. Foads running each in a different direction, three given to W. H. Degges, Washington City, and Mr. Slifer and Mr. Jamison, several for the and one to the West: a canal running to the north-east; and numerous plank roads traversfrom the railroads and rivers, and all terminating in this city. Such is the present condition of this county as to public highways, and access to the county seat, and the great western mart and workshop of our State. Three-fourths of the entire population of the county live right on the route of the great thoroughfares above named :

of Philadelphia, can boast so much and so truly in this respect. No better reason could be named why the county should retain its present shape and limits. The Fruits of Advertising .- Dr. Keyser. There is scarcely a western paper which we ppen, that does not contain a complimentary noice of our fellow-townsman, Dr. G. H. KEYSER, Some may ask why is this? It is easily explained. In the first place, the Doctor is an accomplished physician, who will sell nothing in his store that he cannot warrant, and again he enstore that he cannot warrant, and again he entertains a liberal notion of the advantages of sand in the manufacture of pig-iron; and fourwheat and corn sold on Friday at about the rates advertising. Hence his great popularity with the people, and his great success in business. The man of business capacity, who will bring himman who is being exhibited in public meetings and churches, in New York, as the self before the people through the columns of a good paper, cannot fall to succeed. Dr. Keyser's the Five Points, is an imposter, and he can prove it. Her presents the succession of the control of the success will illustrate in our community the truth of this assertion.
