About the same time that that statement was made, and advice given, the London stock market exhibited the following facts. Ma. J. M. Kirk—Dear Sirv. Myself and wile having beer greatly benefited by the use of your Petroleum, I wish to have you send me a box of two or three dozen bottles, and the Congregational Minister in this place, and severa of my people are affected with indigestion and an inaction of the liver, the same of myself and wife, before taking your Parkausum, os Rock Oil. We took several bottles—two or three each—about a year and a half ago, and we have nover enjoyed so good health for years as we have since that time. I had not taken a single bottle, before that fullness of the stomach which so distresses the dyspetite was relieved, and I have felt nothing of it since that time. My wife was also relieved from a chronic disease of the liver, which had been of several years standing, by the use of your Petroleum.

This may in truth certify, that I have been so badly as listed with Scrotnla for the lastesven years that most of the time! have been mable to stiend to any kind of business, and much of the time unable to walk and confined to my bed, and have been treated nearly all the time by the beat Physicians our country affords: I occasionally got some relief, but no cure, and continued togrow worse until Dr. Foot recommended me to try the Petroleum, by Rock Oll, as everything else had falled. I did so without faith at first, but the effect was astonishing; it threw the poison to the surface at ones, and I at once began to grow better, and by using seven bottles I have got a cure worth thousands of dollars.

This may certify that I have been acquainted with Kier's Petroleum, or Rock Oll, for more than a year, such have repeatedly witnessed its beneficial effects in the cure of indicate ulers and other diseases for which it is recommended, and can with confidence recommend it to be a medicine wor. lent uters am other diseases for which it is recommended unden with confidence recommend it to be a medicine wor thy of attention, and can existly say that success has attended its use where other medicine had failed.
