THE CITY POST.

FRIDAY MORNING.....MARCH 3.

LOVE VS. LARCENY.—John Mahony, committed some time since to the county prison, on a charge of larceny, preferred against him by Mary Fenerty, was yesterday discharged from jail on his own recognizances.

There don't seem to be any thing remarkable in the above announcement, yet it adds but another to the tricks which Cupid has been playing about our police offices lately. The aforesaid John is as handsome a specimen of the young Irishman as can be found; his red cheeks, "elegant" brogue, and youthful appearance, made a decided impression on Mistress Mary Fenerty, a widow, with the three qualities of fair, fat and forty. John prosecuted his suit, and under the auspices of the widow, it thrived remarkably well. He was not a bashful lad, but on the contrary, was well calculated to carry by storm the approaches to a fair lady's heart. One evening, after John had retired from the domicil of his love, Mrs. Fenerty was made aware that a pocket book containing twenty dollars had been abstracted from the bosom of her dress; and, oh horror! she remembered John had been particularly affectionate that evening. We wont pretend to say how John got the pocket book; but it was found in his possession, and Mrs. Fenerty, her love changed to hate, had him locked up in jail. After the lapse of a week or two, the fair widow grew disconsolate for the absence of her lover, and on condition that he would marry her, she agreed to quash the prosecution. John, glad to escape from jail, consented. But man is deceitful—so the widow thought—and a police officer was the constant attendant of John yesterday, until Mrs. Fenerty had changed her name, and become Mrs. Mahony.

The moral of the above is evident. "There's a place for every thing, and every thing should be in its place," and Mrs. Fenerty's pocket book, if we are to believe the proverb was certainly out of place.

DEMOCRATIC MEETING.—A meeting of the Democracy of the Sixth Ward was held last evening, in the public school house in that ward, to take action in regard to the course pursued by the delegates from that ward in the late County Convention.

J. D. KELLY was chosen Chairman, and JAMES CHAMBERS and J. G. CUMMINS Vice Presidents. WM. A. LEES was appointed Secretary.

A committee of three was appointed to draft resolutions In the absence of the committee, the meeting was addressed by Capt. Ward, Dr. G. L. M'Cook, jr., and A. W. Foster, Esq.

The committee reported a series of resolutions sustaining the action of their delegates, Messrs. Ward and M'Cook. Resolutions were also presented denouncing the Nebraska Bill, reputed by Mr. Douglas, and urging the Democratic State Convention to pass resolutions reaffirming the Baltimore platform, and denunciatory of the revival of the slavery agitation." The committee reported a long series of resolutions incorporating the fifth section of the Baltimore platform.

The meeting, which for a ward meeting was well attended, soon afterwards adjourned.

SHERIFF MAGEE received with the death warrant of Jewell, a letter from the Secretary of the State, Hon. Charles A. Black, which will have the effect of setting at rest any doubts which may exist in regard to the action of Governor Bigler. The letter was read to Jewell, after the death warrant had been announced to him. The letter stated that the signing of the third death warrant was the final action of the Governor, in regard to the matter; that every circumstance connected with the case had been fully examined by the Executive, and that his course of action had been determined on, independent of the charge of the Court. The letter from Mr. Black requested the Sheriff to impress upon the unfortunate prisoner the certainty of his fate, in order that he might devote the time left to him, in preparations for death.

REV. ANTOINETTE BROWN will lecture this evening, at Masonic Hall, on the subject of the "Creative Genius of Man."

The lecture of this lady last evening was well attended. Miss Brown is far from being as *progressive* as Lucy Stone; in fact, judging from her discourse last evening, there is some reason in her ideas of progress. Her lecture in the main, however, was a conglomeration of deep abstractions—seemingly too deep, by far, for the comprehension of a majority of her hearers. A slight touch which she gave Bishop Potter, for his refusal to lecture before the Association met with a hearty response from the audience.

Miss Brown is a fine looking lady, and dresses with neat ness, affording an agreeable contrast from Lucy Stone.

BENCH WARRANT CASE.—Before Judge M'Clure.

Stein & Dickson *vs.* Thomas Martin; bench warrant.—The defendant was arrested, on a charge of r-fusing to pay over money on a judgment which had been obtained against him.

On hearing, Judge M'Clure discharged the defendant, deciding that as the judgment had been originally obtained before an Alderman, and a transcript filed in the Common Pleas, a judge of that Court had no jurisdiction in the case.

J. T. Cochran appeared for the plaintiff, and F. C. Flanegin for the defendant.

ALLEGHENY COUNCILS.—The Allegheny Councils met last evening in their Chamber, in the City Hall.

A resolution denunciatory of the report of the former meeting of Councils, which appeared in the Pittsburgh papers, was passed.

A resolution for the appointment of a committee to wait on the Directors of the Pennsylvania Railroad, and invite that company to bring their Road to Allegheny, was passed.

In the Select Council, a discussion took place in regard to the first resolution, which was continued for some time, without reflecting any great credit on the brilliancy of sense of the participants.

ACKNOWLEDGMENTS.—The Young Men's Mercantile Association received from Hon. David Ritchie, M. C., Bache's Coast Survey Report for 1852; also, the President's Message and Documents; also, from Jonas R. McClintock, M.D., Senator, five vols. Colonial Records of Pennsylvania, and three vols. Pennsylvania Archives. Also, the Daily Cincinnati Unionist from the Publishers. Also, the Philadelphia Register from the publishers. Also, the Mount Vernon Banner from Lecky Harper, Esq.

OBSTRUCTING THE STREETS.—Mayor Volz yesterday fined the following persons $2,57 each, for violating the city ordinances in allowing barrels and boxes to remain on the pavements and streets:—Alexander King, John Floyd & Co., and Edmund Wilkins. Francis Falch, John Musgrave, R. Hall, Samuel Hare, and Wm. McKee were fined the same amount for allowing drays and other vehicles to remain on the streets.

"FRANK LESLIE'S Ladies Gazette of Paris, London and New York Fashions" for March, just received by Gildenfeny & Co. This is the best fashion book ever published. The Knickerbocker for March has also been received, and Graham, Peterson and Godey, for March. Graham has a portrait of Washington, painted in 1772, and a splendid steel engraving of the life of Washington, by Headley, with numerous handsomely executed engravings.

BOARD OF TRADE.—A meeting was held in the Board of Trade Rooms last evening, for the purpose of electing Directors and officers. Owing to some informality which existed in the charter, the Board, after considerable discussion, adjourned until Monday next, when the election will take place.

FIRE PICTURES AT PUBLIC SALE.—This evening, commencing at 7 o'clock, at Washington Hall, P. M. Davis, Auct., will sell the large collection of engravings of the great conflagrations. The collection numbers some 140 beautiful designs by celebrated masters. The sale, we are informed, is to be positive.

FIRE.—The alarm yesterday was caused by a fire breaking out in the Good Intent Engine House, on Wylie street near Logan. The fire, it is supposed, caught from a gas burner which had been left burning so near the ceiling that the wood work caught fire. The flames were extinguished before much damage had been done.

FRANK LESLIE FOR MARCH.—Miner & Co., No. 32 Smithfield street, have received Frank Leslie's Ladies' Gazette of Paris, London, and New York Fashions, for March. Single number, twenty-five cents.

PHILHARMONIC SOCIETY.—The second public rehearsal of this society will be given at Lafayette Hall, on Tuesday evening next. The first part of Handel's grand oratorio of the Messiah will be performed.

DISTRICT COURT.—Before H. W. Williams, Associate Judge. The case of Edmundson *vs.* Edmundson is still on trial.

Before Hon. Moses Hampton, President Judge.

John Daw et al. *vs.* City of Pittsburgh; Robb & M'Connell for plaintiff, and Kuhn for defendant. Action of trespass, for the value of horses killed and omnibuses broken on the night of the Mayor's election of 1852. A number of boys collected near the election ground, in the Fifth Ward, and made large bonfires. The light alarmed plaintiff's horses, as he was driving his omnibus into the city from Lawrenceville—they ran off, the omnibus was broken, one horse killed and another injured. Plaintiff claimed from the city having the power, was bound to prevent the kindling of bonfires, and failing so to do was liable for all loss occasioned by them. The court instructed the jury that no express notice of the fire having been given any city officer, and the said bonfire being but temporary, no implication of notice can arise; and that there was no such negligence as would entitle plaintiff to recover even if the jury believed all the evidence given by plaintiff. A verdict was rendered for defendant. The case will be carried to the Supreme Court.

John R. Large *vs.* Wm. Wray, Thomas Mellon, et al.; Shaler for plaintiff, and Mellon for defendant. Action of ejectment for sixty acres of land in Jefferson township, Keith per ies claim under Mary Robb, who died seized of the land in 1835. By an order of the Orphan's Court, the land was sold to Hugh Tower, Esq., whose heirs conveyed to the plaintiff. Defendant claims that Tower purchased for Wm. Chambers, who was his client, and that Tower afterwards conveyed to Chambers, whose title was subsequently purchased by Mellon at Sheriff's sale. On trial.

TWENTY-THIRD CONGRESS.

WASHINGTON CITY, March 2.—*Senate.*—Yesterday, Mr. Clayton spoke in favor of the Nebraska Bill; he argued the unconstitutionality of the Missouri Compromise and adduced numerous proofs to show that the North had repeatedly on former occasions rejected the propositions made by the South, to run the Missouri Line Westward through the territories. He had not concluded when the Senate adjourned.

Mr. Jones, of Tennessee, introduced a bill providing for the distribution of the proceeds of the Public Lands among all the States for indigent Insane. The bill was taken up.

Mr. Brown advocated it.

House.—Mr. Chamberlain introduced a bill granting the right of way for not more than three Railroads across public lands from commercial points on the Gulf of Mexico or Mississippi river, to commercial points in California and Oregon, and also to grant by donation to actual settlers on condition of occupancy and cultivation, every alternate third quarter section of the public lands for 40 miles in width on each side of said railroad, and also to grant every alternate section of public lands within the aforesaid limits to aid in the construction of said railroad. Referred to the Senate committee on the Pacific railroad company.

The House went into committee on Homestead Bill, but without disposing of the first section the committee rose, and the House adjourned.

NEWS FOR RIVER MEN.

The River.—8 feet 6 inches, in the channel, and rising.

There has been a steady rain since morning, and every prospect of a flood.

The steamers loading for St. Louis have all been detained, on account of the rain yesterday. They will leave to-day as advertised.

The steamer *Pittsburgh*, Captain Campbell, is the regular packet for Cincinnati. She leaves at 2 o'clock.

The steamer *Cheriot* brought to port 1500 bbls of flour, and a great quantity of other produce.

The Evansville Enquirer of Thursday last says: "As the *Justice*, was near Henderson Island, on her way up, night before last, she heard a man in the water calling for assistance; she stopped her engine and made all search; but without success, and it is thought he was drowned. As the *Tishomingo* had just passed her, it was supposed he had fallen overboard from that boat."—*Louisville Democrat, February 27.*

The *river* was slowly falling yesterday, with nearly 9 feet water in the canal last evening. On the falls on the Indiana side, in the steamboat pass, there were 6 feet water yesterday. The weather yesterday was disagreeable and rainy, and on Saturday night a heavy rain fell.—*Louisville Courier, March 1.*

The Louisville Courier of the 27th ult, gives the following "time" of a race between three of the crack boats of the trade. The race was to Madison, fifty miles above:

David White, out of sight	23	min.
Jacob Strader, " "	25½	"
Tom Swann, " "	31	"

The second heat and result of the race is soon told. The Strader passed the David White before reaching 12 mile board, ran her heat down out of sight, in the next half hour, completely distancing the field with ease. We annex the summary:

	h.	m.
Jacob Strader, to Madison	3	20.
David White, " "	4	"

Explanation.—This was what sportsmen would call a real jockey race. The Jacob Strader was prepared and trimmed for the contest, and lay over three hours for the express purpose of beating the David White. She had no surplus weights, except passengers—about 200, while on the other hand, the White was not aware of the game that was to be played upon her, had a considerable amount of freight on board, and started from port as usual, punctually at the hour advertised. If she had been prepared and in order, the result might have been different. The Swann, too, was evidently in no fix for a race; having for one item of freight 125 casks of beans. Her captain, however, pitched in and was badly beaten. He perhaps thought that as the Swann had easily beaten the Pittsburgh packets on previous occasions, that she could serve these boats the same dose.

The Jacob Strader has performed a feat, which of course gives her rank among the fast 'uns, but the Telegraph and the Alvin Adams are still ahead of her in their runs to Madison.

The N. W. Thomas is to be sold in Cincinnati at sheriff's sale, on the 6th inst.

The lower Mississippi is getting low, and innumerable bars are making their appearance. The Cumberland is down—its big swell only intended for alarm. The Tennessee is navigable. The Hatchie is too low to admit of loaded boats.—*Louisville Democrat, February 27.*

COMMERCIAL POST.

WEEKLY REVIEW OF PITTSBURGH MARKET.

OFFICE OF THE DAILY MORNING POST,
Friday, March 3, 1854.

Since the date of our last weekly review we have no special improvement in business to note. Our merchants generally, however, have been in the enjoyment of a good healthy trade, and the prospects bid fair for a continuance. Our rivers are in fine order, and the heavy and constant rain throughout Thursday will no doubt cause a high flood, which will enable our coal boats and metal men to get to market. The water was let into the Pennsylvania Canal on Wednesday, and boats will be ready to leave in a few days.

Our markets for Produce, since our last, have been much depressed, although no material change has taken place, except in Flour, which, under the influence of the unfavorable advices from Europe, has declined, as will be seen by reference to the proper head. Pork and Lard have not been much inquired for, and we found but few buyers or sellers.

The N. Y. Post, of Tuesday, has the following:

"The markets for Flour and Grain have suffered some abatement in price since the close of last week, but not to the extent of the decline, only judged to be temporary in the English market. The disorder to make on time contracts are large, and will supply foil trade for a considerable time to come. There are large orders on hand from France and England which cannot be executed at current prices. The demand for immediate delivery is, therefore, very light. The stock of Flour is reduced, and consists principally of the better grades of Genesee.

The receipts of Wheat at tide-water of the opening of navigation will not exceed one-third, it is said, of last spring's arrival. The winter Wheat is badly killed. There is a very light stock of old Wheat in the West, and prices are consequently very firm in the interior. The prospect at present is not good for an early opening of lake navigation. The stock of Wheat in New York is about 50,000 bushels."

FLOUR.—Since our last numerous receipts of flour have been unusually restricted, and with an active demand from bakers and retailers prices were well sustained. We are to-night in receipt of arrivals from Europe more favorable for the trade, the Europa, with three days' later intelligence than the Baltic, from which we anticipate a fair trade for wheat stuff and Provision markets. The result on this side of the Atlantic has been a general depression in Flour, Grain and Provisions. The receipts of Flour for the week, as reported, which may not prove quite exciting at this time:

THE EUROPEAN GRAIN TRADE.—From the London Shipping Gazette of "Review of the Grain Trade of the United Kingdom in 1853:" "The wheat trade has remained in much the same state as for the last two years. The harvest has proved sure to sell, but on the other hand there has been a decided unwillingness to buy, except for immediate use. Speculative investments have yielded small profits, and continued to have gathered ground, that it would be more prudent to reduce than to make any addition to stocks. It is not very surprising, therefore, that the quantities charged on the 31st ult. were considerably less than those of the previous year, and inclined to believe that the prevailing dullness will not be of long duration. As far as it goes, the trade is under the influence of statistical information, the deficiency in the last wheat crop was quite as great as we calculated at harvest time, and though, this year, nothing like the whole crop is experienced, we shall, in all probability, have to import on the same extensive scale as in the two previous harvests, right up to the new French markets, which have been closed for the past been greatly depressed, do not, as yet, show symptoms of a rally; but much may depend on the spring sowings being really supposed. At Havre, stocks of American flour are heavy; and at Marseilles, a considerable quantity of Black Sea wheat is held; there,
