DAILY MORNING POST.

MONDAY MORNING, MARCH 15.

AUTHORITY OF CITIES OVER RAILROADS.—The Superior Court of New York decided last week an important decision in respect to the right of a city to grant privileges to railroad companies through its streets. The case came before the court on an appeal from the decision of Justice Duer, in the case of the Mayor, Aldermen and Commonalty of the city of New York and Jacob Sharp and others. The city authority had given said Sharp and associates the liberty to construct a railroad in Broadway, and on the court decided that they had no right or authority to do so. The grantees were enjoined from acting under said grant, and the Mayor and Aldermen were enjoined from granting to any person the right and liberty to construct a railway in Broadway. Such was the decision of Justice Duer.

THE Judgment, the Court of Appeals, Chief Justice Oakley, and Justice Bosworth, and Sloss sel presiding, have affirmed, with costs. The only ground of this affirmation is that the city charter gives the Mayor, Aldermen, and Commonalty no authority whatever to grant railroad charters; that the power to do so is vested in the Legislature.

DR. GUINDON'S
Improved Non-Explosive Camphene Lamps.
HAVING PURCHASED THE right for the above LAMP in the counties of ALLEGHENY, BRAVER, WASHINGTON, FAYETTE and GREENE, we are prepared to furnish Lamps, or sell Rights for a reasonable price. The Lamps are so constructed as to render explosion impossible, and the public may rest satisfied that they may be used with safety. Those who give our wellknown fluid and the Lamps a trial, will find them cheaper than the "Lard Taller," or oils of any kind; they burn about as to general use. We also have LAMPS AND OILS on the most reasonable terms.
RECOMMENDATIONS!
We the undersigned, have used for some time, Dr. Guindon's Improved Non-Explosive Camphene Lamps, and consider them perfectly safe, and are fully satisfied that it is very economical, and will be extensively used in preference to any other Lamps in use. We believe for safety it is perfectly reliable, and therefore deem it unnecessary to say anything in regard to the danger of using the Lamps in case of fire.
