DAILY MORNING POST.
TUESDAY MORNING.....MARCH 14.

News From India in Five Days.—Within a twelve month of the present date, a railway will be completed from Ostend to Trieste. Letters, passengers, and parcels, will then occupy little more than five days in transit between London and Bombay. Steamers will start from Ostend and Trieste every week, and will take three days to reach Egypt, and another week will bring the mail to Alexandria to claim. Now rapidly advancing, step by step, within thirty six hours of Alexandria, the electric telegraph will be able to do the rest. Six days more will take the steamer to Suez, and the mail will be delivered on the Red Sea, and in twelve days thereafter be safe in Bombay, or within three weeks of their leaving London. Within nine days the electric telegraph is preparing to be laid across the Mediterranean, will have reached Suez, and the 4,000 miles of wire, which have already reached Calcutta, will connect every great town in India with the post of Bombay; so that, before the year 1858 expires, we shall have communication by electric telegraph in one or eleven days' time with every part of India, and by steamer and railroad from Bombay in twenty-one.—*English Paper.*

"DE GUINON'S"
Improved Non-Explosive Camphene Lamps.

THE SUBSCRIBER, HAVING PURCHASED THE right for the above LAMP in the counties of ALLEGHENY, BRADFORD, WASHINGTON, FAYETTE, and GREENE, would particularly call attention to Pocahontas Lamps, or call lights for Burning Camphene. These Lamps are so constructed and the pocahontas so prepared that they may be used with entire safety. They also give more brilliant light, and the consumption of the fluid is less than in the "Long Tubular," or any other kind, very great loss being saved. We also have LANTERNS for CARS on the non-explosive principle.
REFERENCES.

The undersigned certify that we have seen, examined and tried, De Guinon's Improved Non-Explosive Camphene Lamp, patented January 5th, 1858, and are fully satisfied that it is a very valuable improvement, and will be found far preferable to any other Lamp in the We believe it will fully in perfectly reliable, and therefore deem it richly deserving the attention of all such as have occasion to use Lamps of any kind.

Is your Life Insured against Fire?
IF NOT, read what some one has written: "Among all the institutions of our land to protect the family circle from want, none can be found more worthy of support than Life Insurance, or certain in its results, than 'LIFE INSURANCE.' It assistances one in the dying hour, and enables the dying husband to support the wife of his bosom."
Call at the office and get a circular containing a list of the names of those who have taken out Life Insurance Policies during the past year.
