THE CITY POST.

MONDAY MORNING.....MARCH 27.

CUSTOM HOUSE ROBBERY.—Mrs. Swisshelm devotes a long article in her part of the Journal, this week, to the person accused of the robbery of the Custom House. The name of this man is Young, and he is now in prison awaiting his trial. In the article, we find the following:—

"He (Young,) is simply taken on suspicion, because he has lately come out of State's prison. The keeper of the squeaker has said, since his arrest, that a man looking like Major, came when he was examined, took him over to Mr. Hastings, the keeper of the Custom House, to see if he could identify him as the man who knocked him down, and took the keys from him; but he said he did not look like either of the two men he saw—the dress was totally different. Whereupon Alderman Major made the prisoner take off his coat and put on his (Mr. Major's,) take off his hat and put on Mr. Fox's cap and turn down his collar, when Mr. Hastings said he looked like the man. He was then required to go and catch Mr. Hastings by the throat that he might recognize the gripe, but Mr. Hasting thought the hand too small. On this evidence he is still in prison, although legal testimony has been given showing his whereabouts all that evening. The real ground for retaining him in custody is the fact of his recent release from State's prison, and the public mind being much inhibited against him by the most injurious reports."

Young was pardoned out of the State prison by Gov. Bigler, and if the article in the Journal is correct, he was certainly innocent of the offence for which he was sent there. He was accused of robbing a store in Kensington, but at the close of the robbery he was in this city purchasing goods. Gov. Bigler was satisfied of this fact before he pardoned Young, so Mrs. Swisshelm states.

We are gratified to hear that the *Pittsburgh Orchestral Society* will give their first grand Concert on this, Monday evening, March 27. The Society is under the direction of Messrs. ANTON and SCHLOMER, who are both thorough and accomplished musicians. An orchestral that would combine the best musical talents of our city, was needed long ago, and we think the gentlemen who undertook the formation of the Society deserve the most sincere thanks, and ought to be patronized by a musical public. We see by the programme, that we will be favored with six first class musical treat. Besides the splendid overtures of *La Muette de Portici*," and *La Norma*, a symphony by MOZART; Mr. ANTON will perform two solos on the violin.

Mademoiselle Miranda Herring, a renowned cantatrice, who happens just to pass through Pittsburgh on her way to the South, has kindly agreed to assist the Society to their performance, and will give us some of her favorite songs and arias. We are also pleased to hear the Miss Cecelia School, of this city, has promised her valuable services to the Society, and thus we are perfectly free to promise our amateurs of music a very agreeable evening.

WELL DESERVED COMPLIMENT.—Mrs. Mowatt, on Friday evening,—when she took a benefit—was called before the curtain. She made her appearance, accompanied by Mr. Rexleford, who supported her in the play of Armand, and responding to the call, Mrs. Mowatt made a few remarks, sensible, and without that fulsome adulation of the audience, which actors and actresses too often bestow when "called out." In speaking of the improvement of the drama, she congratulated the citizens of this city in possessing a theatre. If I regarded Theatre, as the one under the control of Mr. Foster; and in the same connection, she paid Mr. Rexleford a compliment, happily expressed and truthful. The kind and long continued applause from the audience, reflected their appreciation of such a well deserved compliment to the life of lady possessing the talent and celebrity of Mrs. Mowatt.

AN AFFRAY.—THREE PERSONS STABBED.—On Friday night, in Birmingham, a party of drunken boys commencing at Robert Sligger, John Roberts, a lad named Williams and some others, provoked a fight out of a party of German chair-makers' apprentices in the engine house in Birmingham, Carson street. From what we learn the Germans were provoked to fight—the recreants which took place, resulted in serious injuries to several of the persons engaged in it. Robert Sligger was stabbed in the stomach so badly that his intestines were let out—the wound is a terrible one, and if it feared he cannot recover. Roberts was stabbed on the arm, and Williams had his head cut.

LARCENY.—On Saturday, officer Cook and Wells, of Alderman Steel's independent police, arrested a man named James Fletcher, on a charge of larceny. He was taken before Alderman Steel, and the prosecutor appeared against him. Henry Williams charged him with stealing a pair of boots. John Carr with the larceny of a purse and a silver watch. Commitments were made out against him for his commitment to jail for trial.

STOVE YOU also set up a commitment against Fletcher, for the larceny of a coat from James Simpson. The coat was found on Fletcher's person, when he was arrested.

RAILROAD COLLISION.—On Saturday morning, a collision took place on the Pennsylvania Railroad, at Turtle Creek. The engine of one freight train coming west, was taking in water at that station, when the locomotive attached to another train in the rear of the one just mentioned, ran into that train, breaking five freight cars to pieces, and also injuring and breaking a first class engine attached to the rear train. Both trains were coming west: the cars were empty.

The express train from Philadelphia, arrived at the scene of the accident on time, but was detained half an hour until a temporary track had been laid down.

CIR. WOOD will open his great museum of wonders to-day, at Lafayette Hall, and continue during the week. His collection comprises the most wonderful curiosities in Nature and Change; the wonderful Swiss Bearded Lady; the Feejee Indian King, the smallest specimen of humanity ever known, weighing but 7½ pounds, 16 inches high, and 8 years old; with numerous other curiosities. Over three thousand persons visited them in Philadelphia and Baltimore. All should go and see them.

DELEGATES.—The Printers' Union of this city, at a recent meeting, selected Messrs. Will Cuddy and C. Dusenbury, as their representatives in the National Printers' Union, which meets early in May, in Buffalo, New York. These gentlemen are in every way fully competent to the task of representing the Printers of this city in the National Printers' Union. The sessions of this body for the present year, give promise that they will be characterized by the consideration of matters of great interest to the craft.

DEAF LICENSES.—Ald. McMaster has issued, since the first of February, 831 licenses to vehicles. Last year, 1,200 licenses were issued. The ordinance empowering the City Treasurer to grant licenses, also gives him authority to increase the rate after the first of April, and to bring suit for the license money. Owners of vehicles would do well to comply with the law before the first of April.

THE musical soiree given by Prof. Robbock and his pupils on last Thursday evening, was well attended, and did great credit to both teachers and pupils. Prof. Robbock's reputation as a pianist is too well established amongst us to require any puff from our part. We notice his exhibition to express our sincere thanks for his invitation, which produced us a very agreeable evening.

INJURY TO KILL.—In the latter part of week before last a German named Sipes, residing on Coal Hill, was seriously injured by a man named Llewellyn, who stabbed him with a knife. On Saturday, Llewellyn was arrested. He was taken before Ald. Lewis, and was committed by that magistrate, to jail, on a charge of assault and battery with intent to kill.

THEATRE.—It appears that the manager could not detain Mrs. Mowatt longer than one week. He has, for a subsidy, secured an engagement with that charming vocalist and actress, Miss Caroline Richings. That lady, and her father, appear this evening, at the Theatre, in a beautiful comedy entitled the Prima Donna, and also in the drama of Lady of the Lake.

A HEAVY ROBBERY took place in Wheeling a few days since of silks and fine goods. We are requested to make this notice, as it is anticipated a portion of the goods will be offered for sale.

THE SCAFFOLD.—The gallows used on Friday was torn down immediately after the body of Jewell had been removed from the jail.

QUARTER SESSIONS.—The March term of this Court commenced this morning. The trial of Hosack for the murder of Hague, is set down for the first day.

ASSAULT AND BATTERY.—Ald. Parkinson on Saturday, held a woman named Mrs. Hettle to bail, on a charge of assault and battery on a man, one Joseph Lindy.

NEW CARPETS.
Spring Styles.

AT THE CHEAP CARPET WAREHOUSE, No. 82 THIRD Street.—We are now receiving and opening one of the largest and choicest stocks of Carpetings, oil-Cloths, Mats, Matting, Rugs, &c., ever exhibited west of New York. $1500 REWARD!

ON FRIDAY NIGHT, 10th inst., at about 7 o'clock, JOHN HASTINGS, Collector of this Port, was struck down by two or more ruffians, within a few steps of his residence, in Allegheny City, and his pockets rifled of a Gold Watch, the Key of the Vault of the Custom House, and $230 in money, to wit: two $100 bills, two $50 bills, and one $30, all on the Merchants and Manufacturers' Bank of Pittsburgh. The robbers afterwards entered the Custom House, and took from the vault Two Bags of Gold, each containing $1000, chiefly in $20 pieces.

FIVE HUNDRED DOLLARS REWARD

Is hereby offered for the arrest and conviction of the robbers, or any of them, and

ONE THOUSAND DOLLARS

Additional, for the recovery of the money, or a proportionate reward for whatever amount may be recovered of the money stolen.

JOHN TAYLOR,
Deputy Surveyor.

Pittsburgh, March 13, 1854. mar13dam

Land for Sale.

1800 ACRES OF LAND IN FOREST COUNTY, near the Clarion river. This land is heavily timbered, has an excellent soil, and is said to contain an abundance of iron ore, and a thick vein of bituminous coal. The Venango railroad, which will undoubtedly be built, will run very near to it, if not directly across it. The Millstown creek runs through it.

ALSO, 500 acres in Elk county, well timbered and watered, and lying near the route of the Sunbury and Erie railroad. No better investment could be made than in these lands. The completion of the Sunbury and Erie, the Allegheny Valley, and the Venango railroads through that region will render the coal, lumber, iron ore and soil of great value. Enquire of

C. B. M. SMITH,
Attorney at Law,
No. 147 Fourth street.

It has Power to Cure.

PITTSBURGH, February 18, 1847.

Mr. R. S. Sellers:—My wife has been for years subject to a distressing cough, accompanied with asthma, for the cure of which she tried different cough remedies, and had the advice of the most eminent physicians in England, but all were unavailing. By chance I heard of your Imperial Cough Syrup, and was induced to buy a bottle for a trial, although I had no belief that anything could remove her complaint. To my great surprise, two doses gave her immediate relief. She is still, at times, troubled with a cough, but two teaspoonfuls of your Syrup always stops it. I am satisfied that, after a trial of three or four years, Sellers' Cough Syrup is the best cough medicine I have ever tried, either in the Old or New World.

WM. FAIRBURN,
7th Ward, city of Pittsburgh.

Prepared by R. S. SELLERS,
67 Wood street.

TELEGRAPHIC.

By the O'Reilly Lines for the Morning Post

LATER FROM CALIFORNIA.

NEW YORK, March 25.—The Northern Light, from San Juan, arrived this morning, with 33 passengers and $700,000 in specie. The following are some of the consignees: American Exchange Bank $85 000; Dahcen, Thurman & Co. $220,000; Drexe l & Co. $110,000; Adams & Co. $100,000; Wells, Fargo & Co. $350,000.

The Northern Light connected with the Sierra Nevada. She left San Francisco on the evening of the 1st. The Northern Light was detained two days in consequence of the steamer Central America being detained on the Lake by a storm.

The steamer John L. Stephens took down to Panama only $400,000 on freight.

There is nothing additional of special importance from San Francisco.

A Mormon was lynched in Mariposa county, for the murder of Nathan Pratt, of Rhode Island.

In Oregon a bill has passed, ordering a vote in the formation of a State Government.

Dates from Honolulu to the 4th February, state that annexation is still talked of. Trade was very dull.

Intelligence from Lower California states that the Pilibusters had nearly all left. Those remaining are suffering for want of provisions.

The Maine Liquor Law has been introduced into the California Legislature.

TELEGRAPH MARKETS.

NEW YORK, March 25.—Ashes—Pearls—sales 1000 bbls at 12 cents and 400 at $7.37½@7.50.

NICHOLS' GREAT WORK.

MARRIAGE

ITS HISTORY, CHARACTER, AND RESULTS: ITS RANGE, LAWS, AND RELIGIOUS USAGES; ITS SCIENCE AND ITS FACTS—Demonstrating its Indissolubility, and the Physical Regeneration, on the happiness of the individual; and the progress of the race. By T. L. NICHOLS, M. D., and Mrs. MARY S. GOVE NICHOLS. In one volume, 12 mo. cloth: 430 pages.

This Book of Marriage is very different from any other ever written on its prolific and suggestive themes. The Author writes with sound philosophy, showing the connection of this great central social institution, with our whole moral and religious life, and demonstrating the true laws and conditions of the love relations of the sexes, which are necessary to individual sovereignty, and social harmony, as the highest condition, and surest guarantee of happiness of man.

The scope, nature, and design of this curious and important work, will best be gathered from its

CONTENTS.

PART FIRST—*Historical and Critical*—By T. L. Nichols, M. D.—Introductory—Definitions and Explanations; Marriage, in the Old Testament: Marriage, in the New Testament: Marriage and Divorce; Position of Woman in Christianity; Marriage as it is; marriage and slavery; marriage and the Family; Marriage and Individuation; the agreements in favor of marriage; marriage and Love; the Affinities; Love, marriage and conjugality; free love, or the doctrine of the pretentious; marriage a type of its real ideal; Love; Love, marriage and divorce; the love doctrines of Fourier; the wrongs of marriage.

PART SECOND—*Narrative and Illustrative*—By Mrs. Mary S. Gove Nichols.—Woman an Individual: Illustrative cases; liberty in the law of one's own life: illustrative cases; facts and illustrations; splendor, subjection to false faith and love; attraction and repulsion: conclusion.

PART THIRD—*Physiological and Scientific*—By T. L. Nichols, M. D.—Liberty and humanity; principles and laws; human plurality of the sexes; the duration of love; the duration of loves; the doctrine of Fourier; the wrongs of marriage; the position of children; woman's right to love; what is normality? what is impossible? is freedom safe? what is normality? what is impossible? is freedom safe? the former at 25, and the latter at $3.25.

A poor supply of Wheat, and more inquiry. Sales 1000 bus at $1.68, and white at $1.80. Rye worth 90@91. Corn scarce and in demand at an advance of 2c. Sales 5,000 bus at 67c. Oats offered for yellow, afloat, stocks small and generally limited nominally at 40c. No sales this figure. Whisky dull; we quote at 26 in hhds and bbls.

CINCINNATI, March 25.—Noon.—The river has fallen 12 inches. Markets very dull. Flour and Provisions. Small sales of the former at $8.30@8.35. No sales Provisions and Lard. Whisky—Sales 200 bbls Whisky. Sales 700 hhds Sugar at 4½@5¾c for fair to prime. Molasses—Sales 200 bbls at 22. Clover seed firmer at $5.25.

NEWS FOR RIVER MEN.

The River.—7 feet water in the channel and stationary, on Saturday evening at dusk.

By a despatch, it is reported that the steamer *Cuba*, that left here yesterday, struck the wreck of the *Fanny Fern*, and sunk in six feet water. We believe the *Cuba* was insured for $9,000 in the Delaware Mutual and Firemen's Insurance Companies. Capt. Smithers left for the wreck on the *Newsgirl*, on Saturday evening. The greater part of her load will be saved in a damaged condition. She had a large lot of light goods up in her cabin that will be saved, and a great portion of those on her first deck.

The steamer Keystone State, Capt. Haslett, is the Monday Packet for Cincinnati. The hour for her departure is 2 o'clock.

The steamer James Lyon, Capt. T. Lyon, leaves to-day for St. Louis. This is a fine opportunity for those emigrating out West; they will do well to call and see her.

The steamer Winchester left yesterday, for St. Louis, to take her place in the Alton and St. Lou's trade. Our word for it, she will suit the trade.

The River is gradually assuming moderate proportions. A fine stage for business purposes, than that at present, could not be desired. There is plenty of room at the landing for the freight, which is tumbled, stored and stored away with great facility.

The new War Eagle made her first appearance at the landing yesterday. Her length is two hundred and fifty feet, breadth of beam thirty five feet, depth of hold five feet. She has five thirty inch boilers, twenty-four feet long, and her cylinders are nineteen inches in diameter with seven feet stroke. She is particularly intended for the Galena and St. Paul's (on the upper Mississippi) passenger trade, and is commanded by Captain Harris.—*Cin. Com., Mar. 24.*

The St. Louis Republican says:

Captain Morgan Bateman, of the steamer Julia Dean, has proposed to give twenty-five dollars each for the first two boys that will give, to erect a monument to John R. Trice, the intrepid pilot who was burned to death at the wheel of the steamer Caroline on White River, while resolutely laboring for the lives of those on board. It is proposed to erect the monument on the levee. A very proper feeling, and we suggest, that liberal provision should be made for the widow and child of the brave pilot who sacrificed his life to preserve the lives of others.

The steamboat McLean, with a large cargo of cotton, struck a snag a few miles below Grenada, Miss., on the 16th inst. and sunk. The boat is a total loss. About 400 bs of cotton were taken to New Orleans by the steamer Troy, in a damaged condition.

We are well stated that the Orizmona, a Mobile boat, at last accounts, was out of the Alabama river, with seven feet of water. Why don't they take down the bars and let her out?

The Yale Rearing Experiment Investigation.—The investigation of the causes of the explosion of the steamer Yale, which occurred shortly before U. S. Commissioner, Hickman. The witnesses for the defence were being examined on Saturday last.

The evidence is more voluminous than had been expected; it now covers nearly yesterday over an hundred pages of cap paper, and will probably reach one hundred pages of Captain Embree alone was kept on the witness stand nearly five days. We believe that the investigation is very thorough, and that it discloses many interesting and important facts connected with the explosion. The boiler makers, who are generally known heretofore; and while the testimony of the former is plain and straightforward, that of the latter is evasive and unsatisfactory. The greater part of the testimony of the engineers, boiler makers, and pilots, is technical, and only understood by those conversant with the business
