DAILY MORNING POST.

MONDAY MORNING.....APRIL 3.

ESCAPING FROM HOUSES ON FIRE.—Means of escaping from houses on fire have recently been adopted by the police of London. They have stout canvass sheets prepared, which are stretched beneath the house on fire, into which the persons in the building throw themselves, and are caught. The canvass escape has been tried, and has given the greatest satisfaction as to its utility and safety. Persons who could not be persuaded to descend a fire ladder, have leaped into the canvass without hesitation. This, however, is not new—it has often been adopted in this country.

THE CITY OF GLASGOW.—Great anxiety is beginning to be felt at Philadelphia on account of the non-arrival of the screw steamer City of Glasgow, from Liverpool. She sailed with 320 passengers, and a valuable cargo of goods. Last March she was twenty-six days on her passage. It is supposed that she has exhausted her supply of coal, and is depending on her sails to bring her into the port of Philadelphia.—*Pennsylvanian.*

☞ Delegations of Indians from Nebraska, of the following tribes: Kickapoos, Shawnees, Sacs and Foxes, and Delawares, are expected in Washington shortly, the negotiate with the government for the sale of their lands.

DE GUINON'S
Improved Non-Explosive Camphene Lamps.

HAVING PURCHASED THE right for the above LAMP in the counties of ALLEGHENY, BEAVER, WASHINGTON, FAYETTE, and GREENE, we are prepared to furnish Lamps, or sell Rights for a reasonable price—These Lamps are so constructed as to render explosion impossible.

and the public may rest satisfied that they may be used with entire safety. They also give a more brilliant light, and the materials used, being cheaper than the "Long Tallow," or oils of any kind, they must come into general use. We have LANTERNS and CANS on the non-explosive principle.

RECOMMENDATIONS;

This certifies that we have seen, examined and tried, De Guinon's Improved Non-Exploding Camphene Lamp, purchased January 6th, 1852, and are fully satisfied that it is a very valuable improvement, and fill be found far preferable to any other Lamp in use. We believe for safety it is perfectly reliable, and therefore deem it richly deserving the attention of all such as have occasion to use Lamps of any kind.
