FOR CANAL COMMISSIONER

The War Steamers-Our Foreign Rein-A bill passed the U. S. Senate some time ago, without a dissenting voice, appropriating three millions of dollars for the construction of six war steamers, of large class, to strengthen our navy. The bill is now before the House of Representatives; and it is proposed to double the appropriation, and the number of vessels to be

The present aspect of foreign affairs, seems as length to have aroused the attention of our public men at Washington to the manifest necessity of strengthening this right arm of our national defence. And several events that have occurred of late, show the propriety of a speedy commencement of the work. The bill before Congress, even when amended as proposed, will probably meet with but few opponents. All reflecting men are convinced that a more efficient organisation, and a large increase of our navy is needed in the present state of the world, with our vest commerce, and our thousands of miles of assailable sea-coast.

Within the last seven months a general war in Europe has been considered as a probable event: and during that time Americans have been principally intent upon investigating the probable pecuniary advantages which this country might derive from the existence of such a war. Some of those advantages have been greatly overestimated. The prices of breadstuffs and provisions are not likely to reach the exorbitant figures. predicted; and the monopoly of the carrying and the Baltic, and leave the shipping and commerce of these nations but little endangered or affected by the war. WILD SPECULATION. The speculative fever that prevailed amor nerican merchants a few months ago, has lately received a pretty severe check. Merchants and shippers in New York seem to have entirely over imated the demands they would have to supply in different quarters of the world. One instance t it is seen in the present state of the Califorin trade. It is stated that the stock of goods n store at San Francisco now, is nearly sufficient o supply all the demands of that State for the next two years. And goods, and even flour and rovisions, in large quantities, are re-shipped for

The Senate passed a bill on third reading, prohibiting the license claimed by Sheriffs to employ professional hangmen to execute the penalty of death, and also limiting the number persons to twenty-five as witnesses of these

The House continued the discussion of the bill for the sale of the public works; and the subject will, from day to day, be in order, until finally disposed of. FARMER. THE SULTAN OF TURKEY .- The Constantinople correspondent of the Newark Daily Advertiser thus describes the Sultan of Turkey:

"We had a favorable chance on Friday, of seeing the Sultan (Monsieur Abdal Mejid) on his way to and from the Mosque. His departure from the Scraglio palace (occupying the very point of the peninsula on which stands the city, washed on all sides,) was announced by an articlery salute, which brought out half the popuwashed on the stee, I was announced by an ar-tillery salute, which brought out half the popu-lation. Three gilded caiques, each rowed by twenty or thirty showily dressed carsman; comprieing the royal suite. The Sultan occupying the middle one, sitting squat on a great green cloth, under a green canopy, with four officers facing him. On reaching, his destination he was received by a regiment of troops, with music, and after remeighted in the contraction. ic, and after remaining in the mosque half an hour, came out and mounted a camparisoned horse, in the midst of pressing crowds of officers, pachas, cunuchs, &c. He was enveloped in ous French broadcloth cloak, and his pale, hollow, French-looking face, nearly covered by a flowing black beard, was crowned with a red cap, from which dangled a rich purple tassle. Poor young man! we pitted him, for young as he is, (only 22) he is evidently decrept, with debauch."

Thus, for a term of court not exceeding six weeks, \$100; for ten weeks, \$125; infteen weeks, \$160; and all over that period \$200. In that form the bill passed through three readings, and will be returned to the other House, where the amendment will not be acceptable.

To-day the Senate was engaged in the consideration of local matters of no general interest. One act, however, may be worth a saying that if she determined to remain in the army she must give a trial of her skill by an assult at arms. The Governor of Adans, who was informed of the fact, ordered that the young girl should be brought before him, and he asked her if she still persisted in her resolution. She responded in the affirmative, and added that she would engage willingly in the trial at arms to which they had said she must submit, provided they would give her for an adversary the bravest and most vigorous of the 2,000 covaliers of which the detachment was composed. New Yoas, September 16, 1859.

This is to certify that my child, three years old, walkfoodbled with worms some six mouths. I had tried reversily that my child, three years old, walkfoodbled with worms some six mouths. I had tried reversily thinds of melicine, but more of them done any good; and it was not until if tried Dr. M'Laine's celebrated Vermifuge that ahe found any relied. I gave her the continuts of one bottle, which brought from her a very large quantily of worms, but they were so completely out to plees it was impossible to count them. My daughter is now doing well, indeed ahe he completely resorted to health. I therefore take pleasure in recommending it to parents. I would say, by all means keep a supply of this valuable melicine contantly in your houses. I have known many children to dis suddenly from the effects of worms. It also not unfrequently happens that children are treated for croup, when the choking and coughing is mared altogether by the irritation of worms. Therefore, we say again, keep it always in the bouse; if costs but little, and may be the means of saving life; and at any rate it will save physician's bill.
