We believe the coal in our State will, in a third of a century, be worth more than the present assessed value of all the property of the commonwealth. The demand will be almost without limit, and the facilities for sending it to the most distant markets, such as to render it one of the greatest interests of the whole country.

Coal property has risen in price all over the State within the last few years; and along the routes of new public highways it has doubled and trabled in price.

MUTUAL INTEREST:

CONSULIDATION. The Gazelle, Dispatch, Union, Chronicle D. Post have all spoken out in favor of consolidation. The details should be carefully considered, and the whole matter understood by all arties interested, before the bill passes. There is no occasion for haste. The Post has frequently sdyccated such a measure for months past, and

advocated such a measure for months past, and we see no reason to change our opinion.

But we publish the communication of "Mutual Interest," without hesitation. Let all sides be heard, and the measure fairly discussed.

"Mutual Interest" is an excellent writer, and his article will be rend with interest.
