DAILY MORNING POST.
FRIDAY MORNING.....APRIL 21.

PROGRESS OF AUSTRALIA.—During 1853, the population of Australia increased 81,656. The imports at Melbourne alone, for the year, were £14,000,000, against £4,000,000 for the whole colony in 1852. For the six months ending January 5, 1854, the value of goods imported into Melbourne from the United States was nearly five millions of dollars. The total gold produce of the year in all the fields of Australia was 123 tons, 1,628 pounds 6 ounces. The result is a decrease on 1851 of 46 tons, but 13 tons of the receipts of 1852 should have been credited to 1851. A large number of Americans, having made more or less money, were leaving the colony for Peru, in search of gold, and if not successful would go to California or the Atlantic States.

CIGARS.—Some curious Yankee has been making a series of curious computations respecting the number of cigars annually consumed in this country, and the motive power expended in "whiffing." He says the cigars would make a worm fence six feet high around the District of Columbia, and the air expelled in smoking them would drive the Japan squadron round the world with enough over to do the wind work of all the patent medicines.

THE EFFECTS OF RAILROADS.—The wild lands along the line of the Illinois Central Railroad, which, previous to the construction of the road, would not have brought more than one dollar per acre, are now estimated to be worth from five to twenty dollars per acre, and are about being put in market by the company at those prices.—*Detroit Free Press.*

DR. GUINON'S
Improved Non-Explosive Camphene Lamps.

HAVING PURCHASED THE right for the above LAMP in the counties of ALLEGHENY, BEAVER, WASHINGTON and LAWRENCE, we are prepared to furnish Lamps, or sell Rights for a reasonable price.
These Lamps are so constructed as to render explosion impossible and the public may rest satisfied that they may be used with entire safety. They also give more brilliant light, and the materials used being cheaper than the "Fluid" Lamps of any kind, they must come into general use. We also have LANTERNS and CANS on the non-explosive principle.
RECOMMENDATIONS:
This certifies that we have seen, examined and tried, Dr Guinon's Improved Non-Exploding Camphene Lamp, patented January 5th, 1852, and are fully satisfied that it is a very valuable improvement, and will be found far preferable to any other Lamp in use. We believe further it is perfectly reliable, and therefore deem it richly deserving the attention of all such as have occasion to use Lamps of any kind.

150 Cheap Lots for sale,
IN ROCHESTER, BEAVER CO., Pa., at less than half price. Fifty of these Lots will be sold at $50 each, and 100 lots at $100 each, for the benefit of mechanics and others, who cannot spare a second $50, or a second $100 though deserving a good building lot opnion. Just as soon as a man worth hundreds or thousands. Those who have no money may purchase one for their labor, at liberal wages, being $3 or $10 a month, in labor, and receiving a warranty deed the moment the lot is thus paid for. The title to these grounds is perfect, for which reference is made to Thomas Cunningham, Esq., of Beaver, and N. P. Peterman, Esq., of Pittsburgh.
A very great amount of labor will be required in this neighborhood, not only by the subscriber and those whom he represents, but by the Beaver Manufacturing Company, by the Ohio and Pennsylvania Railroad Company, by the Cleveland and Pittsburgh Railroad Company, and by the Beaver County Enclose Iron Company, who expect to run 20 furnaces in and about the Beaver villages the present season. Full respect to the terms of sale, upon reference is respectfully made to Messrs. Kramer & Rahm, of Moorhead, J. W. Hallman, Lyon, Shorb & Co., W. Bowen Woods, J. R. Hunteborn, Wm. Whigham, and James H. Crane, Pittsburgh.
Contracts, for grading, excavating, quarrying, inlaying stone work, brick work, carpentry, and other branches of labor, may now be entered into by those who apply.
The Rochester Lots are 40 feet front by 125 feet deep, each containing 5000 square feet, just double the quantity in common sized city lots, of 25 by 100. The price, I will be seen, is only one cent a foot, or $1 per lot of 10 feet square. *Here a man can have land of his own to sit down on for 5 cents, or for 10 cents, or for 10 cents, the price of a drum, a cigar, a shave, or the blacking of his boots. Here he will not own real estate, at such prices!*
The property now offered is worth double the price charged for it, and will be so acknowledged and reputed, by all the moment it passes into other hands.
Many building lots are already begun, which will be built on and occupied the present season. Selections can be made at three prices, from the 50s to the 100s lots only; after which, a *public sale* upon the premises will be announced, and lots will bring from $100 to $500.
Those who pay cash will deposit it with George Speyrer, Esq., of Rochester, or with Messrs. Kramer & Rahm, of Pittsburgh. The deeds will be made out, acknowledged, and deposited in the same hands, to be delivered when paid for the money.
Maps of the Borough of Rochester will be found at various public places, and smaller plates of the lots will be freely given to those who apply.
The above proposition will be open to the 15th inst. only.

Rochester, Beaver county, Pa.
