DEMOCRATIC TICKET. FOR COVERNOR WILLIAM BIGLER. FOR JUSTICE OF THE SUPREME COURT, JEREMIAH S. BLACK,

FOR CANAL COMMISSIONER, HENRYS. MOTT,

THE SECTIONAL WHIG PARTY. Since the passage of the Nebraska Bill, it has become evident that the remnant of the once powerful Whig party could no longer hold to gether as a National party—the Northern section taking such extreme ground on slavery as to utterly allegate their Southern brethren. It has now become a serious question with South. ern Whige what they shall do. They cannot again meet on a common platform with Messrs. Seward, Greeley & Co., for these gentlemen have become too deeply dyed in abolition to al-

the entire Whig party in the North. The Southern section, finding themselves adrift of the wreck. In an article upon the project of an independent Southern Whig convention, as trown out by one of the Whig journals in Virginia, the Columbus (Ga.) Times and Sentinel thus meets the question:

meets the question:

"The Whig party, as a party, is abolitionized, and it will
be treason to their section for Southern Whirs longer to
affiliate with it. There are but two courses for them to take,
it. To form a rectional organization. 2d. To join the denocrasy. The first course is recommended by the Enquirer. Ist. To form a recture as a second control of the Enquirer. If the object of the movement is disunian, this is unquestionably the proper policy. But if the object is to remain in the Union and control the action of the government, then to operation with the democracy is the only alternative. If we allow that the Southern Whigs can carry the whole South into a separate sectional organization, of which, however, there is no probability they would still be in a minority, and the government would be in Northern hands. The South must have allies at the North, then, to enable her to protect herself from the aggressions of the abolitionist. We cannot do without them if we would. But why should we turn our back upon our friends. There are many Northwe cannot do without them if we would. But why should
we turn our back upon our friends. There are many Northerrn Democrats who have stood by us in every issue, and
trunk hinw for hiow and received wound for wound with us
in every hattle with the abolitionists. They have richly
won our confidence. Why should not the whole South go
into the next National Democratic Convention."

"NIGGER IN A WOOD PILE!"-Abolition papers generally, and all others of Free Soil proclivities, have been making a great ado over the escape of a "fagitive" from some slave catchers in Chemung Co., N. Y., a few days ago. The facts of the case turn out to be these :-- A negro, in Elmira, broke open a hardware store, from which he stole a considerable amount of recent duel between Gen. J. Saunders, of Alaba property. He was traced to Jersey City, and ma, and Judge Evans, of Mississipi, gives the arrested by officer Garrett, of Elmira. While on the way back, the officer and prisoner occupied the way back, the officer and prisoner occupied the way back, the officer and prisoner occupied the salcon in a passenger car, and at many stations the former was interrogated as to what he was doing "with that nigger," and very likely n most cases, curiosity was not satisfied. The officer finally dropped asleep, and while in that state, either unaided or by the help of outsiders, and dangerously wounded, the ball entering his breast. The difficulty seems to have originated the prisoner escaped. As we anticipated in our issue of Friday last, M. We feel further assured that he brings no intimation from Santa Anna of a disposition to ask any further delay its final consummation. We have just heard of advices from the city of Mexico, which came by the last arrival from Vera Cruz, to par-ties in New York, which satisfy us that Santa Anna wishes hard cash in hand, rather than monthly instalments; but that neither he nor General Almonte contemplate any necessity for the active labors of the latter at this point for tions. The fact that he contemplates such a journey, is satisfactory evidence of the correct-

THESE INVALUABLE PREPARATIONS
Have now been before the public for the past five years,
and have become so well and favorably known that they
do not require any very elaborate praise. They may been
used by thousands throughout the country, and have seldom been known to fail in curing the most attuborn cases.
Although there are so many compounds which are daily
offered to the public under the name of histories and Spedice, these are the oxix prairiarious; that Lawe ever been
invented which will insure the patients spiedly, permanent
and infinite cure. They are composed of ingredients of the
most valuable description known in the medical world, and
are entirely of a. VEGETABLE NATURE:

and, although powerful, they will not trium in the least the most delicate constitution. They were invented by one of first and most celebrated Venoreal Physicians in Paris, at examine years of study and syperience, and since their introduction into the United States, have effected mortures both of recent cases and those of long standing, the any other medicine of the kind ever offered to the public. The extracrdinary success of M. Baily's Antidote and Lotion arises, in a great degree, from the fact that they are entirely different from all other preparations, both in the nature of their lagredients, and in the manner in which they operate upon the patient. The Antidote operates in mediately on the Urinary scate of the disease, the Urchart. It neutralizes the whul and suppresses all the morbid symptoms and irritations generally, in a very short time. neutralizes the virul and suppresses all the morb mptoms and irritations generally in a very chort time The Lotion contains no Natrate of Silver, or any oth DANGEROUS MINERALS
