Bart, only eleven years of age, was drowned on the superintendent and teachers of the Fifth street Method ist Protestant Church, and strayed off, in company with several companions, to bathe in the creek—to reach which they had to walk over a mile.

After being in the water some time, the younger brother was carried by the current into a large hrle, where the water was over fifteen feet deep; which being observed by the gelder, he ran immediately to his assistance, without considering this inability to swim. As a consequence, before reaching his brother, he got beyond his own depth, and while s.il struggling nobly to render that assistance to an other which he needed himself, he sank beneath the water.
