News of the Day. The Lightning Line between Cincinnati a Louisville has suspended operations. No less than eight deaths from Cholera occured on Monday night among the inmates of the

Catholic Orphan Asylum, Cincinnati. In consequence of a transposition of figures in our article on the health of Chicago, we give

on the 18th inst., by a vote of 95 to 74, approprinting between two and three million dollars for river and harbor improvements. The way this large sum is made up illustrates forcibly

generally by the Democratic party. In order to secure a sufficient number of votes to pass the bill through the House, and possibly the Senate, a large number of appropriations are included in the same bill, providing for imtions of the country. Members then feel con-

strained to vote for it, or be subjected to the charge of having defeated appropriations for the beneat of their own districts. The bill now pending in the Senate is got up in this way, as our readers will see, in reading the long list of items, which we publish for the benefit of all concerned, and as an illustration of the beauties of log rolling legislation. Many of the appro printions contained in it would receive very few votes if they stood alone, and depended on their own merits. But thrown into a general bill they must be voted for or votes will be lost for other objects of real merit. Then, if a Democratic President vetoes it for such glaring defects, and such wasteful extravagence, he is soundly abused by the Whigs, and charged with sacrifi-

cing the interests of the country. The following are the appropriations contained in the bill:

property of the provement of the Harbor of Burlington, munical, \$18,000; for a dreige best for Lake Champiain, \$7,000; continuing the improvements of the Harbors of Garrigot; continuing the improvements of the Harbors of Garrigot; \$20,000; countinuing the improvements of the Harbors of Bari, 200; 800; Bary, 189796 Co., \$14,800; Bord, 200; Champiain, \$20,000; Champ

to the House for concurrence or non-concurrence; and, as the session is near its close, Congress may probably adjourn without passing it. Should it pass in the form in which it passes the House, it is very doubtful whether it will receive the approval of the Executive.

Moderate appropriations for the improvement of rivers and harbors, where each object stands on its own merits, and is clearly national, would not be objectionable to any party. But a general system, and general bills, give rise to improper and corrupt legislation, and a waste of bushel. money that no honest man can justify or defend. money that no honest man can justify or defend.

By examining the above list of items, it will be seen that no State is forgotten in the distribution of the money. Thus the sectional interpretation of the money of Congress is considered with worms balance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy in the money of the late Thomas Ritting and the balance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy in the money of the late Thomas Ritting and the balance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy in the money of the late Thomas Ritting and the balance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy in the distribution of the money of the late Thomas Ritting and the balance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy in the palance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy is a palance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy is a palance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy is a palance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy in the palance remaining from the year 1852, 1,245 to less on time, but immediately purchase and administer that the cauchy in be seen that no State is forgotten in the distribution of the money. Under a repre-sentative government such as ours, the right of petition has no real existence except in the case of individuals who ask of Congress redress for private grievances, or settlement of just claims. The right does not exist, because it is unneces-sary. Besides; a petition is unde by the info-rior to the superior; but under this government the people are supreme, and their representatives the inferiors. Suppose every citizen of a certain Congressional District in Massachusetts were to sign a petition for the repeal of the fugitive slave law, and send it to Congress; what effect would it have?
