north by the Arctic ocean. It contains, includ-ing the Aleutian Islands, over four hundred thousand square miles, and a population of about sixty-five thousand, mostly Indians. The seat of government of the territory is Sitks, which it is said, traces of poison. The other one we of government of the territory is Sitks, which is situated on an Island of the same name. A great portion of Russiau America is barren and unhabitable. But the Southern portion could as it was supposed. These "horrible rumors" here. s situster of an island of the barron and poisoned in Mexico, instead of dying by Cholers sustain a population. The territory lies in the are taken, as they should be, cum sellum granis.

and the second second

the Fourth was just the thing for the occasion-fresh, earnest, and happily seising upon the sympathies engendered by that immortal day. A man who would "get off" a dry disquisition in Independence Square, surrounded by an en-thusiastic Democracy, on the Fourth of July, sould never obtain the thundering applause which erested Mr. Dawson's effort and in our
