News of the Day. There were 180 deaths in Boston last week. The number from Cholera is not mentioned. In Chicago, for the twenty-four hours ending at 11, A. M., on Friday, the number of deaths from cholers were fourteen; from other diseases. ninc-in all, twenty-three.

Three men were killed, including the foreman of the establishment, and thirteen wounded. The cause of the catastrophe, it is said, could not have been foreseen, as the palance of the population consisted of Jamaica negroes and native Indians. "Land pirates and thirteen's were the terms usually applied to them, walked over the building not an hour before it fell. The works were new and cost upwards of \$0,000.

Capt. Smith, Commander of one of the Transit Company's river steamers, shot a native pilot in self-defence. The passengers who saw it say it was clearly an act of self-defence, the pilot be ing in the act of raising his gun to kill the tain at the moment. The passengers also state that the safety of the boat and all or board, depended on the life of the Captain; and that he only saved his life by shooting the pilot This act of self-defence was committed out o the jarisdiction of Greytown. Yet the so-called Marshal of that village, (a negro, by the way,) with a posse of Jamaica runaway negroes and

Indians, undertook to go on board the boat and arrest Capt. Smith. Major Borland, the American minister plenipotentiary to Central America being present, interposed and prevented the ar rest, which would doubtless have been followed by lynching There was no law in that town and an act of self-defence would doubtless have been punished with death without form of law. The auccess of Major Borland's interference was not by virtue of his office, for no American authority is respected there; but by virtue of his rifle in the ready hand of a man known to de just what he promises. It is proper, however, to state that some of the passengers give a dif-

ferent account of the killing of the negro by Smith. Be that as it may, when Major Borland The Committee for the Board of Health for the arrived in Greytown he was mobbed, and missles thrown at his head. The flag of his country affording him no protection, he was imprisone for several hours. He at length got on board the American steamer, and left for the United
