THE CITY POST. MONDAY MORNING.....AUGUST 7 arday, at two o'clock, Mayor Yoks disposed of the case o ainer, of the First Baptist Church, b delendants, Mesers, Benl, Thomas, John discharging the datendants, Mesers Benj. Thomas, John Phemas, George Gambert, James & M'Cane, and William Drewford. The following is the decision in the case: "Dressons or Marion Yout,"—A forcible entry and drains: it committed by violently taking or keeping possession of lands or tensments, with meaners, force and arms, awithout authority of law. (A Blackstone's Commandary without authority of law. (A Blackstone's Commandary

without authority of law. (A Blackstone's Commentary, 16A,)

Now it is very well settled that a simple possession is good as against even the legal owner, and that such may be guilty of violating the law by saking possession, provided to be done in a violent and unsewful manner, even thought such person may be permitted to retain the passession, laving thes once gained it. (A Archibal's Crim. Practica.)

Without going further, therefore, into the case, as regarded the possession, and supprising the Trustees to have the legal right and Redd the possession, they may be guilty of forottle entry and featingin; so if they have so right to the possession, (the right or want or right not in any way effect, ing this case and it stands in presently, was the entry such as comes within the law?

James Reed says: Seen the defendants in the church and wated them what they were going to do there; said they had gitten postession and were going to keep its said they had gitten postession and were going to keep its said they wanted to go they would popen the door, &c. Upon erose waxmination, said no force was used to eject me; they did not threaten me; the did lock did not depart to be broken, and was not removed, &c.

Now to constitute forcible entry and detailer, it must be done with a strong hand, with unusual weapons, or with meanse of tiffs or limb. It must be jaccompanied by some directumiance of violence or terror, and an entry without has no more force than it implied by the law in every ones of treapes. (I Hawk, P. O.)

In this case there was no violence, no threatening language, or public disturbances. No person saw the defendants sates violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot be presumed they entered violently or by force, and as it cannot to prove the provided of the defendants were closely not under such that the defendants were desired to the defendants were closely not under such the violent of the defendants were closely not under such the violent of the defendants were closely not under such that the defendants were desired to the defendance of the controlled.
