[Rom the Philadelphia Ladgar, of Monday.] Letter of the Rev. John Chambers

MESSES. EDITORS: - During a recent visit to the Bedford Springs, I was called upon by som State, and invited to address the people of Bedford on the importance of inducing every friend of humanity to vote for a problistory liquor law at the essuing election. I most cheerfully com-

deem it due to others as well as to myself that the truth should be known.

My resolication is, that I urged upon the people present on that occasien, the importance of the temperance reform generally, and exhorted them to vote for a prohibitory law at the next election. I expressed the belief that the whole question was involved in the resolutions allowing the people to vote for and against a prohibitory law, and that the real friends of temperance should direct their attention to that point and isw, and that the real friends of temperance should direct their attention to that point and that only. I declared my belief that if the law was demanded in this way, by the voice of the people, it mattered but little who filled the office of Governor—the law would be sanctioned—that no man would set himself against the will of the people. I said then, as I repeat now, that I be-lieve either of the distinguished gentlemen would carry out that will if put in a form consistent with the terms of the Constitution.

I did say that Governor Bigler was too good a I did say that Governor inger was to good an Democrat to resist the will of the people, and that I had every confidence besides in his desire to do any reasonable and proper thing to arrest the vice of intemperance; that I know from correspondence and personal intercourse with him, that he held the doctrine that the will of the people should be binding so far as related to the policy of the measure, but that he would not yield his right to judge of the constitutionality and justice of a law when it came before him—he would not so far forget the dignity of his statement. tion or the obligations of his cath. But Gover-nor Bigler has written to me no letter inconsis-tent with his manly letter to the Temperanot

Convention.

I felt more at liberty to say what I did of Gov. Bigler, because I believe an attempt had been made to prostitute the ascred cause of temperance to mere partisan ends, and to turn its insince to mere partisan eaus, and to turn its in-duence against his re-election. I did not hesi-tate, as I shall not, to rebute this attempt, and I intend so to do whenever and wherever I may meet it, and this is the true and real cause of the counteints which here here noneferral areas

was om plaints which have been preferred against my Bedford address.

I also, at the same meeting in Bedford, referred to a scoret sworn political organization, whose the case of the gorious country, and that too, in the face of the guaranties of the Constitution of the United States as well as of our own beloved Commonwealth; both of which recognize the adopted citizen on the same broad platform of civil and religious liberty, with the native born. Big-ier, because of his fixed determination not to violate the Constitution and laws of the land, by disfranchising adopted citizens, either on account

disfranchising adopted citizens, either on account of their religion or the place of their birth.

There are in my own church, and in every other church in this "Land of the free and home of the brave," men of foreign birth as pure pariots, and as good men as ever breathed the air of freedom—men, who to the letter obey the Constitution and laws of the country of their adoption. Are these men to be disfranchised and stricken down like felous, by the iron hand of a scoret sworn band of petty despots? Every true-her ried, Constitution and law-loving American christian and patriot will answer no! But ican christian and patriot will answer no! Bu the men who have emigrated from Scotland, ingland, Ireland, Wales, Gérmany, France, and eisewhere, and made this the laud of their adop tion, citizens by choice and not by accident, and among whom are to be found some of our best citizens, are to be turned out of political society and treated like serfs, solely because they were ly avow their purpose, and not hide themselves or their actions from the light of day.
