"A forret, when placed at the entrance of a rat.hole, or rs the aperture, travels along the passage, seises upp a rat, oxterminates his existence, and draws the animal he rst, exterminates his exis isfunct carcars to the light. And in like manner have und Dr. M'Lane's American Vermifuce to operate upo they, those dreadful and dangarous tarmentors of chil p. This remady, like the ferret, enters the aperture of moath, travels down the guilet, bunts round the stom-lays hold of the worms, shakes the life out of the rep-

way river. The season had been very fice, and the corn erop was unusually heavy. In Holt county, where hemp is an important production, the prospect was very fine for a heavy erop. The middle section of the State has probably, suffer-ed most from the extreme drought. From New Madrid, Penisott, Mississippi, and ther counties in that worknow we have the tiles, sweeps clean their don, and carries their carcases olear out of the system. This, at least, has been the effect of the Vermifuge upon my children."
