AP Ture Hope for the Bick.—DR. MORSE'S INVIGORATING ELIXIR OR CORDIAL.—The startling curse of nervous diseases wrought by this marrel-working restorative has awakened the public mind from the apatory with which innumerable disappointments had accustomed it to regard what are called "patent medicines." It is not too much to say, that nothing short of miraculous interpo-sition has ever produced such rapid relief to the feeble and suffering. Thousands of both sexes, whose nervous sys-tems were utterly proctrate, some of whom were bed-ridden, and others merely tottering over the earth's surface, apparently broken in constitution and on the high road to the grave, have been restored, by two or three courses of the flixir, to robust health. The Agent has the proofs and evidences in his hands, and is prepared at all times to ex-hibit them. The medicine only requires facts to sustain it.
