We clip the following from the Reading Journal. Dr Keyser, the agent for the medicine, says he will warrant or guarantee a cure in any case of Hip Disease or Scrofula, that may be presented. Pamphlets containing cures of the most astonishing character will be given to any one gratis.

Oakeley's Depurative Syrup.
"We understand that our townsman Dr. George W. Oakeley, is now giving his whole attention to the manufacture of his Depurative Syrup and Extract of Sarsaparilla, in order to supply the extraordinary demands for the article which are coming in from all quarters. This Syrup is without doubt the best of the kind made in the country. We *know* it to be one which we can *honestly* recommend to the favorable notice of our readers. It has been tested by years of experience and use, and found to be all that is claimed for it by its inventor. A pamphlet is lying before us, filled with certificates of cures, the names appended to which are not *men of straw*, as is usual with documents of this character, but *well known citizens of Berks county*—who have experienced the effects of its curative properties. Appended to the list are certificates of different county officers of Berks county, with the seals of their several offices attached, stating that they are well acquainted with the persons whose names are given as reference, (among which are the names of a number of our principal physicians,) and know them to be genuine. We advise those of our readers who are afflicted to call upon Dr. Oakeley, at his office in North Fifth street, and procure one of these pamphlets, which will not fail to satisfy them that his preparation is one of extraordinary power and efficiency, and eminently deserving of their attention."

Land for Sale.
1800 ACRES OF LAND IN FOREST COUNTY, near the Clarion river. This land is heavily timbered, has an excellent soil, and is said to contain an abundance of iron ore, and a thick vein of bituminous coal. The Venango railroad, which will undoubtedly be built, will run very near to it, if not directly across it. The Milltown creek runs through it.
ALSO, 600 acres in Elk county, well timbered and watered, and lying near the route of the Sunbury and Erie railroad.
No better investment could be made than in these lands. The completion of the Sunbury and Erie, the Allegheny Valley, and the Venango railroads through that region will render the coal, lumber, iron ore and soil of great value. Enquire of C. B. M. SMITH, Attorney at Law,

NEWS FOR RIVER MEN.

The River.—Last evening, at dusk, there were, by the metal marks, three feet five inches water in the channel, and had been stationary during the day. Weather moderating.

The steamer "Adelia" leaves this morning for Zanesville, in charge of Capt. Geo. Washington Graham, and takes passengers for Wheeling and all intermediate ports. Those that have ever traveled on the "Adelia" will recommend her.

Capt. J. C. Stockdale's new boat, the "John C. Fremont," is at the wharf, and designs leaving for Saint Louis to-day. From the reputation that Capt. S. has gained in the business of boating on the Ohio and Mississippi rivers, there is no doubt but he will prove as successful as the pioneer whose name his boat bears. Her hull measures (Custom House guage) 315 69-95 tons; the length of hull is 150 feet; beam 39½; depth of hold, 6 feet—two engines, 22 inches, with 5¼ feet stroke. She is furnished with a "doctor" and a "negro" engine, for hoisting freight—three boilers, 38 inches diameter by 26 feet long. The water wheel is 23¼ feet in diameter, with a 32 feet bucket—the largest wheel ever put on any boat. The "Fremont" will also be furnished with a separate boiler, for the use of the doctor and negro engines; besides, she is provided with all the requirements of the new steamboat law. Those traveling with Capt. Stockdale will be well taken care of.

The Nashville Gazette, of the 30th ult, says: The river is now in a tolerable stage, and boats are taking the advantage of it. To-day there are four feet two inches water in the channel.
A despatch from Clarksville yesterday, states that the river was rising at that place.

The Pittsburgh rise reached here during Saturday night. From Saturday evening up to dusk last night, the river at this point, has risen about sixteen inches, and was still rising.
The steamers "Granite State," "Ben Bolt," "James Park," "Bay City," "Allegheny," "Tropic," "H. T. Yeatman," "Eclipse," and "Philadelphia," had arrived, and were advertised to leave on the 4th.
The tow boats "Tigress" and "Shinguss" arrived in Cincinnati on the 2nd and 3rd inst., with 60,000 bushels of Pittsburgh Coal.—*Cincinnati Commercial, 4th inst.*

MEDICAL.

Cristadoro's Excelsior Hair Dye.
A great invention triumphs over all factious rivalry, even in this credulous age. It has been said that every city is a Paradise of humbugs; but let a really meritorious article, capable of doing all that is promised for it, be placed in competition with mere nostrums, sustained by puffery, and not by their own excellence, and the true preparation will succeed while the trash falls into contempt. It has been thus with CRISTADORO'S EXCELSIOR HAIR DYE. It was offered as a preparation embodying all the chemical ingredients of nature's own blacks and browns. The chemists analyzed it, and certified to the fact. The public tried it, and their experience confirmed 'the dictum of the scientific world.' Its popularity was almost as instantaneous as the change of color it effects. The people were invited, through the press, to see its operation with their own eyes. They beheld red, sandy, yellow and grey hair, transformed in five minutes—without passing through any intermediate tints—to a brilliant and rich natural black, or to any shade of brown. They found that the fluid imparted no stain to the skin of the head, emitted no unpleasant odor, contained no cauterizing element. Of course, they endorsed it. They could not do otherwise; and at this moment the sales of the article exceed that of any other half dozen hair dyes in the world. It is the latest effort of science, and it may be truly said, "the noblest offspring is the last." The Excelsior Hair Dye must break down every other and monopolise the market, simply because it is the best. The result it produces is its sufficient advertisement. Compare its operations with that of other hair dyes, and judge to which of them the palm should be awarded.

Consumptives Read!
HYGEANA, or Newly Discovered Method of Inhalation.—This most wonderful article is destined to produce an entire revolution in the treatment of all diseases of the lungs. Accounts are daily received from Clergymen and other persons of the highest respectability, of cases of cures heretofore considered incurable of Asthma, Bronchitis, Consumption, and all Diseases of the Lungs, by DR. CURTIS' HYGEANA. Read the following:
Dr. Russell, Postmaster of Burlington, N. Y., says: "Send a dozen more Hygeana; it is working wonders here in diseases of the lungs. I believe it will cure any diseases not in the very last stages, and even then is priceless to the rest and comfort it is sure to give the sufferer. 'I am willing,' said my neighbor, 'to purchase a package a week for my daughter; it gives her perfect rest. I do not expect her to live.'"
HYGEANA IN MAINE.—J. H. Gaubert, Postmaster of Richmond, Maine, writes us: "The Hygeana is doing wonders here. My sister has had a distressing cough, with great difficulty of breathing, for years. She were the inhaler and took the Cherry Syrup for a few days before she was relieved, and now, after one month's use of it, her cough is well. Dr. Curtis' new system of inhalation must produce an entire revolution in the treatment of diseases of the lungs. There is no mistake, it is truly a wonderful discovery."
The Rev. Mr. Curtis says: "It is now eight days since my daughter put on the inhaler and commenced using the Hygeana, and it has already done more for her than all the medical faculty have been able to do for the last two years. The irritation and tickling sensation in the throat is gone, and with it the cough. She sleeps well."

A Physician's Opinion of my Shoulder Braces.
DR. LANE, editor of the Chambersburg *Transcript*, under date of September 18, 1854, in speaking of these Braces, says: Our friend, Dr. GEO. H. KEYSER, submitted to our inspection a very fine specimen of the "Washington Suspender Brace," manufactured and sold by him at the corner of Wood street and Virgin alley, Pittsburgh. It serves admirably the purposes for which it is intended, is light and easy, and altogether free from the objections attached to the many other Braces in general use. It is an excellent Suspender, while at the same time it preserves the shoulders in a healthful position, without at all restraining the natural movements of the body. The Dr. will send them by mail, free of postage, to any part of the Union.
