THE REASONS GIVES. The editor of the Gazette is explaining hi reasons for opposing the Know Nothings. He states that the K. N's. are the allies of slavery. He can make what charges he pleases against them, but when he reiterates the same charge against the Democratic party, we beg leave to tell him that he knows it is not true. slavery as a local institution, with which the general government has nothing to do. Abolitionists seek to make it national, and the constant subject of national agitation and legislation. So far as we can judge from indications, the new party designs to take the same ground opinion among the members of the party; but maledictions of the Gazette. Abolitionism is its hobby, and whatever opposes that is denounced of the commissioners appointed to examine and settle the claims for damages on the main line of the public improvements.

K. N's. on some other subjects, on the slavery question we can agree with them, if such is their position.

Another reason for the Gazette. Abolitionism is its denounced of the commissioners appointed to examine and settle the claims for damages on the main line of the public improvements.

Mr. Taggert offered a resolution for the appointment of a joint special committee, to fix the time for the opening and articles.

These are the facts.

Let us render to Casar the things that are Casar's and not give to Nicholas that which belongs to the 23 of December. M. Bonaparte's desire to be conscerated has done all. The affording the fact of the commissioners appointed to examine and settle the claims for damages on the main line of the public improvements.

Mr. Taggert offered a resolution for the appointment of a joint special committee, to fix the time for the opening and articles.

After giving a vivid nicken.

Another reason for the Gazette's opposition to be K. N's. is because they are opposed to the that is their position on that question, we think they are about right for the present. We have heretofore attempted to show that there are causes now in operation that will reduce the revenues of the government to the standard of it wants; and that no reduction of duties will be needed to prevent the accumulation of

money in the treasury. The next reason why the Gazette dislikes the new party is, that it endorses the Sub Treasury, and opposes banks-national banks, and all others. How our neighbor found out that such was the position of the K. N's. we do not know.

Some resolutions adopted at a meeting in Fayette county are referred to for proof. He also says they are opposed to corporations and monopolies, and an extravagant system of internal imounced the standing countities for the session. On motion, Thomas McConnell, A. J. Brower, the K. N's, are all going to turn Democrats, and adopt Democratic principles and measures.

That any new party, seeking power with the masses of the people, should adopt Democratic principles on which the prosperity of the country has heretofore depended, and will ever depended. But between the K. N's, and the Democrats there is a wide difference of opinion on several subjects, and they can never agree on them. Democrats would also an every subjects, and they can never agree on between the K. A's and they can never agree on the bill passed at the last search, and they can never agree on because of the minimages to subjects, and they can never agree on borough of Huntingdon to subjects and they can never agree on borough of Huntingdon to subjects and they can never agree on borough of Huntingdon to subjects and they can never agree on borough of Huntingdon to subjects a subjects.
