News of the Day. The Legislature of Florida has passed a law bolishing the Supreme Court of that State. A submarine earthquake was experienced at sea on the 7th of November last, 42 degrees 82 minutes long., 88 degrees 45 minutes west, by the ship Magnolia, at New York, from Callao. So great was the shock that those below ran on deck, supposing the vessel to be ashore. In the State Legislature, on Tuesday, the Senate passed a bill to define and punish bribery. and to compel witnesses to testify, and one relating to taxes on collateral inheritances. In the House, a number of unimportant bills were passed, and one reported from Committee, to repeal the registration laws of Philadelphia. The path of reform which the New York Mayor has carried out is not all bestrewn with roses. He is in receipt, it is said, of sundry anonymous letters, threatening personal violence, if he persists in carrying certain measures against the gambling houses and places of prostitution. Thirty of these latter have already been indicted, and some others are marked out.

A railway from Balaklava to the camp is to be commenced at once.

The fire of the allies continued to be very feeble, and caused scarcely any damage. The sickness in the garrison is on the increase.

The garrison is constructing a bridge and bosts to connect the city of Sebastopol with the forts on the North side.

There was a report at Paris that on the 12th Sebastopol had fallen, but the report did not pain general belief.

Omer Pacha embarked on the 1st for Balakla.

He has taken means to bring a force of 0,000 men and 60 guus into the Crimes. Ten iousand Turks have already landed in Eupatria.

Mencalikeff is reported to have calli-di in all 1 detached corps. Osten Sacken is watching of the profite of the orfole of th the discharges shated, and in a few weeks the dysantaric secretion was entirely suppressed, and from that time to this, I have felt no rain, so somerses, so districts, and am now as strong and bearity as ever."

ONRM AND BUNIUMS can be cured with DALLEY'S PAIN EXTRACTOR by rabbing some of it in, on, and around the parts morning and evening, keeping on a small quantity epread on linen. It completely draws out the torus. Persona lamed with Corns and Bunions—unable to wear boots, and some walking on cratches, have been completely and successfully cured by it.

23 For more than two years we have worn Dr. Keyser's

"Washington Suspender Brace," and feel its pleasant duty
again to recommend its use to all of sedentary occupations.
Combining the advantages of a Shoulder Brace with those
of a pair of Suspenders, it is light and comfortable, and
effectually counteracts the disposition to become stoopshouldared. Those of our readers who are in need of such
as article, should call on Dr. Keyser, on Wood street, corner of Virgin alley, and examine this Brace, which has recently been much improved.—Pittheryh Dispatch, December 8th, 1884.
